Motion Design Library

116 ready designs · 72 documentary scenes · 44 SaaS / UI animations

Every design has: a **narration script timed to the visuals**, a **storyboard** (what appears at which second), **4 real rendered frames** and a **renderable spec** (JSON) the bot can learn from, re-render or remix into brand-new designs.

How the bot uses it

- Reads the most similar designs (script + storyboard + spec) before it designs your video.
- Learns the pattern: what the voice says → what appears on that second.
- Invents NEW designs by combining patterns, changing layout, colours, animation family, camera and transitions — never copying.
- Topics: space, history, ocean, nature, science, technology, economy — and SaaS / UI motion graphics.

How to read a page

Top: title, id, duration, suggested sound style. Strip: 4 frames of the real render. Left: narration with timestamps. Right: storyboard shots.

The 29 design patterns (each has 4 variations)

Pattern	What it is	Use when	#
title_hero	Full-bleed photo with kicker, two-line title and subtitle	Opening of any documentary / episode	4
archival_photo	Ken Burns photo with lower-third caption, year counter and fact pills	Introducing a person, place or event	4
timeline	Horizontal line with 4 dated events appearing in order	History, progress, before/after sequences	4
big_stat	Giant counting number inside a growing ring	One striking number that carries the point	4
ping_map	Grid map with pulsing location pings joined by a route	Journeys, trade routes, data paths	4
quote_card	Huge quote mark and 3-line quote revealed line by line	A quote or statement the audience should feel	4
split_compare	Two glass cards with counting numbers and a VS badge	Comparisons: then/now, A/B	4
steps_list	Numbered rows sliding in with emoji	Processes and how-it-works lists	4
chart_reveal	Chart that grows, plus a key-number side panel	Showing data and one takeaway	4
process_flow	4 connected nodes with emoji and step numbers	Cycles and pipelines	4
orbit_diagram	Central body with orbit rings and moving bodies, legend chips	Solar system, atoms, any orbiting model	4
chapter_opener	Giant chapter number, title and photo panel	Splitting a long video into chapters	4
fact_fan	3 tilted cards with counting numbers	Quick fact sets	4
year_ticker	Huge year counter running between two dates with progress bar	Jumping across time	4
icon_grid	2×3 glass tiles with emoji labels	Categories, types, overviews	4
glitch_transition	Scene A, glitch transition, scene B with a counting stat	Before/after or past/present jumps	4
outro_logo	Logo with ripples, name, tagline and CTA chip	Ending / sign-off	4
kinetic_statement	3 big words slam in, last one highlighted, shapes float	Punchy statements between scenes	4
device_showcase	Laptop / phone / browser mockup with floating feature chips	Product hero, app reveal	4
settings_toggles	Glass panel with rows whose toggles switch on one by one	Settings, privacy, feature switches	4
toast_notifications	Notification toasts sliding in and stacking	Alerts, activity feeds	4
kpi_dashboard	3 KPI cards with counting numbers, line chart and ring	Dashboards, reports	4
ai_prompt_bar	Prompt bar with typed text, send pulse, result tiles	AI assistants, search	4
pricing_cards	3 plan cards with counting prices and a popular badge	Pricing sections	4
loading_success	Progress ring that turns into a green check with ripples	Upload / payment / setup success	4
onboarding_steps	Stepper with progress bar and swapping content card	Onboarding, tutorials	4
command_palette	Command palette with typed query and shortcut rows	Power-user search / shortcuts	4
chat_bubbles	Alternating chat bubbles sliding in	Support, messaging, tutoring	4
feature_trio	3 glass feature cards with coloured icons and bars	Feature highlights	4

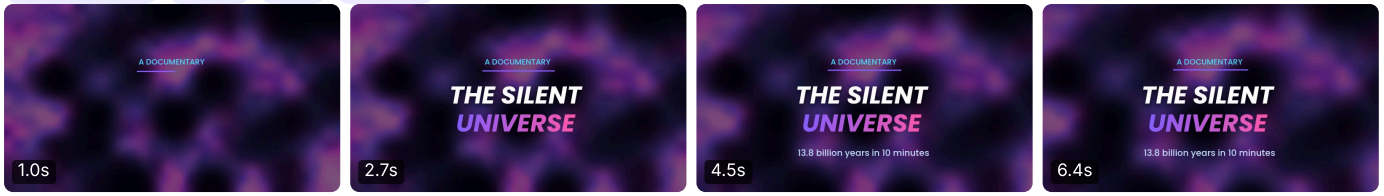

Make a NEW design (recipe the bot follows)

1. Pick the scene idea (one idea per scene, 5–9 seconds).
2. Write the narration first, one sentence per beat.
3. Choose a pattern and put each key word on its own second.
4. Change at least 3 things from the library design: layout, theme, animation family, camera, transition, content.
5. Alternate dense and calm scenes; use transitions only between scenes.
6. Keep text short and big, inside the safe margins.

Space title: The Silent Universe

doc-01-title-hero · 7.0s · sound: kinetic

Documentary · space · intro · cosmos

Idea: Full-bleed photo with kicker, two-line title and subtitle. **Use when:** Opening of any documentary / episode.

Narration (voice, timed to the visuals)

0.5s Space is almost perfectly silent.

1.6s Yet its story is the biggest we know.

3.4s Let us travel through 13.8 billion years.

Storyboard (what appears)

0.0s photo (nebula) (fade) + text "A DOCUMENTARY" (fade) + line draw (wipe_right)

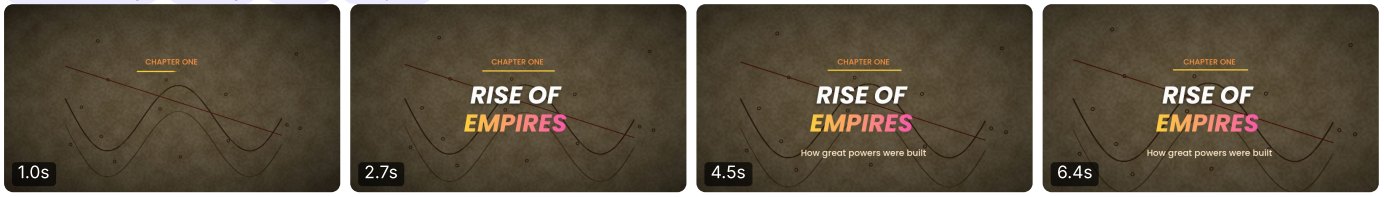

1.0s text "THE SILENT" (slide_up) + text "UNIVERSE" (slide_up)

3.0s text "13.8 billion years in 10 minutes" (fade)

History title: Rise of Empires

doc-02-title-hero · 7.0s · sound: kinetic

Documentary · history · intro · empire

Idea: Full-bleed photo with kicker, two-line title and subtitle. **Use when:** Opening of any documentary / episode.

Narration (voice, timed to the visuals)

0.5s Empires do not appear overnight.

1.6s They are built from trade, roads and ideas.

3.4s This is how it begins.

Storyboard (what appears)

0.0s photo (parchment) (fade) + text "CHAPTER ONE" (fade) + line draw (wipe_right)

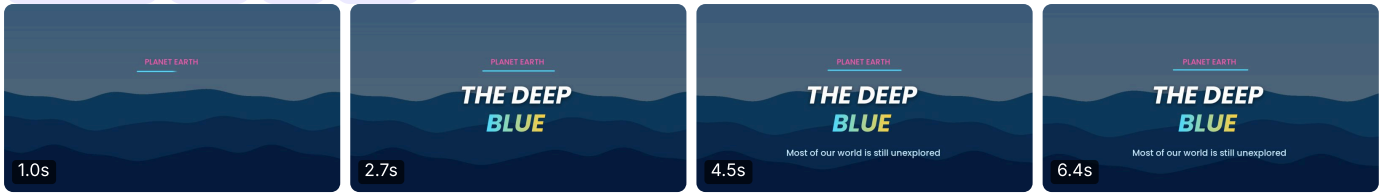

1.0s text "RISE OF" (slide_up) + text "EMPIRES" (slide_up)

3.0s text "How great powers were built" (fade)

Ocean title: The Deep Blue

doc-03-title-hero · 7.0s · sound: kinetic

Documentary · ocean · intro · nature

Idea: Full-bleed photo with kicker, two-line title and subtitle. **Use when:** Opening of any documentary / episode.

Narration (voice, timed to the visuals)

0.5s Seventy percent of Earth is covered by ocean.

1.6s Most of it has never been seen by human eyes.

3.4s Welcome to the deep.

Storyboard (what appears)

0.0s photo (ocean) (fade) + text "PLANET EARTH" (fade) + line draw (wipe_right)

1.0s text "THE DEEP" (slide_up) + text "BLUE" (slide_up)

3.0s text "Most of our world is still unexplored" (fade)

Tech title: Age of Silicon

doc-04-title-hero · 7.0s · sound: kinetic

Documentary · technology · intro · tech

Idea: Full-bleed photo with kicker, two-line title and subtitle. **Use when:** Opening of any documentary / episode.

Narration (voice, timed to the visuals)

0.5s Every screen you touch hides a tiny city of switches.

1.6s Billions of them, smaller than a virus.

3.4s This is the story of the chip.

Storyboard (what appears)

0.0s photo (circuit) (fade) + text "TECHNOLOGY" (fade) + line draw (wipe_right)

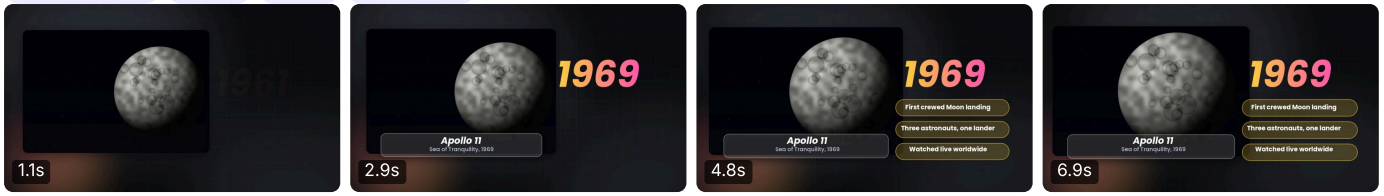

1.0s text "AGE OF" (slide_up) + text "SILICON" (slide_up)

3.0s text "The chip that changed everything" (fade)

Archive photo: Moon landing era

doc-05-archival-photo · 7.5s · sound: kinetic

Documentary space photo lower-third

Idea: Ken Burns photo with lower-third caption, year counter and fact pills. **Use when:** Introducing a person, place or event.

Narration (voice, timed to the visuals)

0.4s In nineteen sixty nine, humans reached another world.

1.8s Apollo eleven touched down in the Sea of Tranquility.

3.2s Two astronauts walked on the surface.

5.2s Millions watched it live on television.

Storyboard (what appears)

0.2s photo (moon) (rise) + text "#" (slide_up)

1.2s panel (slide_up) + text "Apollo 11" (fade) + text "Sea of Tranquility, 1969" (fade)

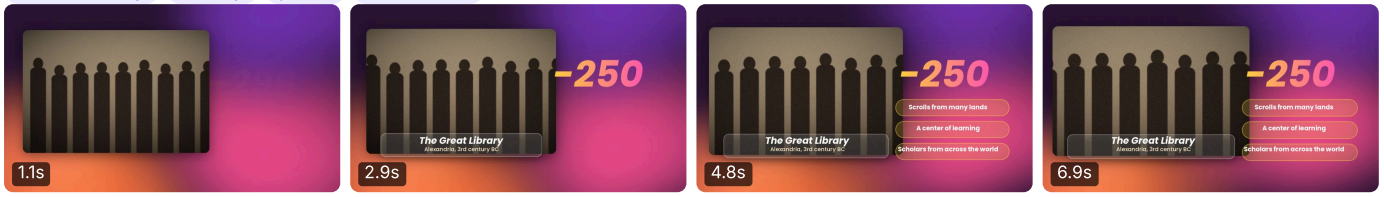

2.8s panel (slide_left) + text "First crewed Moon landing" (fade) + text "Three astronauts, one lander" (fade)

3.8s panel (slide_left) + text "Watched live worldwide" (fade)

Archive photo: Old library

doc-06-archival-photo · 7.5s · sound: kinetic

Documentary history photo lower-third

Idea: Ken Burns photo with lower-third caption, year counter and fact pills. **Use when:** Introducing a person, place or event.

Narration (voice, timed to the visuals)

0.4s Long ago, knowledge was kept on scrolls.

1.8s The library of Alexandria gathered them from everywhere.

3.2s Scholars traveled across seas to study there.

5.2s It became a symbol of human curiosity.

Storyboard (what appears)

0.2s photo (archive) (rise) + text "#" (slide_up)

1.2s panel (slide_up) + text "The Great Library" (fade) + text "Alexandria, 3rd century BC" (fade)

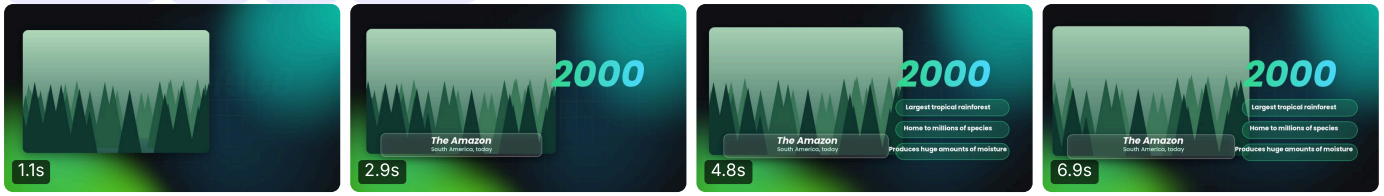

2.8s panel (slide_left) + text "Scrolls from many lands" (fade) + text "A center of learning" (fade)

3.8s panel (slide_left) + text "Scholars from across the world" (fade)

Archive photo: Rainforest canopy

doc-07-archival-photo · 7.5s · sound: kinetic

Documentary · nature · photo · lower-third

Idea: Ken Burns photo with lower-third caption, year counter and fact pills. **Use when:** Introducing a person, place or event.

Narration (voice, timed to the visuals)

0.4s The Amazon is the largest tropical rainforest on Earth.

1.8s It is home to millions of species.

3.2s Its trees move enormous amounts of water into the air.

5.2s Protecting it protects the climate.

Storyboard (what appears)

0.2s photo (forest) (rise) + text "#" (slide_up)

1.2s panel (slide_up) + text "The Amazon" (fade) + text "South America, today" (fade)

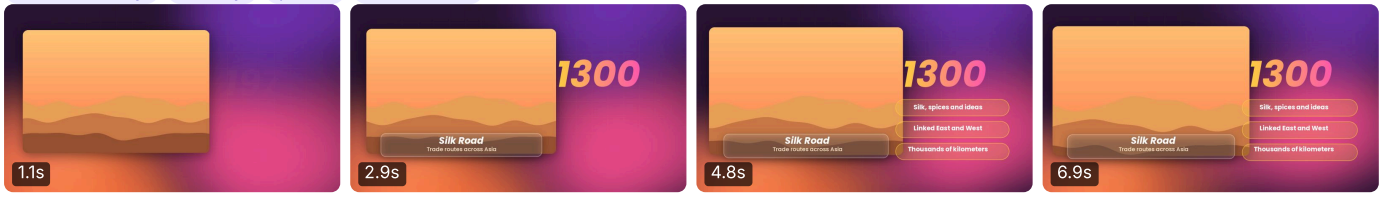

2.8s panel (slide_left) + text "Largest tropical rainforest" (fade) + text "Home to millions of species" (fade)

3.8s panel (slide_left) + text "Produces huge amounts of moisture" (fade)

Archive photo: Desert caravan

doc-08-archival-photo · 7.5s · sound: kinetic

Documentary · history · photo · lower-third

Idea: Ken Burns photo with lower-third caption, year counter and fact pills. **Use when:** Introducing a person, place or event.

Narration (voice, timed to the visuals)

0.4s Caravans crossed deserts for months.

1.8s They carried silk, spices and paper.

3.2s Ideas traveled with the goods.

5.2s The Silk Road connected East and West.

Storyboard (what appears)

0.2s photo (desert) (rise) + text "#" (slide_up)

1.2s panel (slide_up) + text "Silk Road" (fade) + text "Trade routes across Asia" (fade)

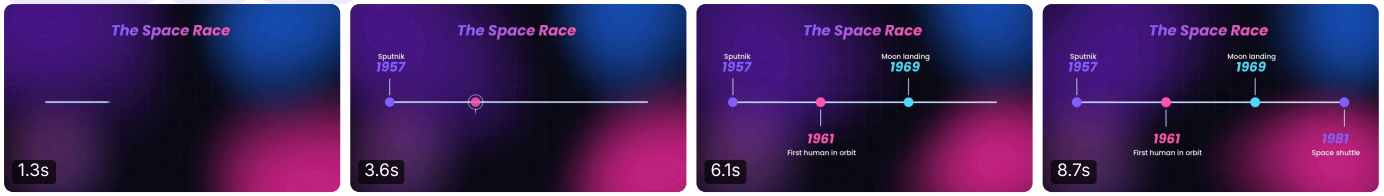

2.8s panel (slide_left) + text "Silk, spices and ideas" (fade) + text "Linked East and West" (fade)

3.8s panel (slide_left) + text "Thousands of kilometers" (fade)

Timeline: Space race

doc-09-timeline · 9.5s · sound: kinetic

Documentary space timeline

Idea: Horizontal line with 4 dated events appearing in order. **Use when:** History, progress, before/after sequences.

Narration (voice, timed to the visuals)

1.9s It started in nineteen fifty seven with Sputnik.

3.5s Four years later, Yuri Gagarin orbited the Earth.

5.1s In sixty nine, humans walked on the Moon.

6.7s Then came reusable space shuttles.

Storyboard (what appears)

0.3s text "The Space Race" (slide_up) + line draw (wipe_right)

1.8s line draw (wipe_up) + text "1957" (slide_up) + text "Sputnik" (fade)

3.4s line draw (wipe_down) + text "1961" (slide_down) + text "First human in orbit" (fade)

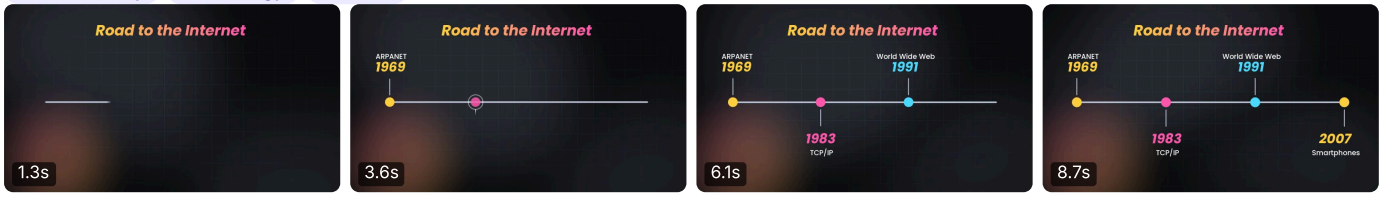

5.0s line draw (wipe_up) + text "1969" (slide_up) + text "Moon landing" (fade)

6.6s line draw (wipe_down) + text "1981" (slide_down) + text "Space shuttle" (fade)

Timeline: Computing

doc-10-timeline · 9.5s · sound: kinetic

Documentary technology timeline

Idea: Horizontal line with 4 dated events appearing in order. **Use when:** History, progress, before/after sequences.

Narration (voice, timed to the visuals)

1.9s The first network link was made in nineteen sixty nine.

3.5s TCP/IP became the common language in eighty three.

5.1s The web opened to everyone in ninety one.

6.7s Smartphones put it in every pocket.

Storyboard (what appears)

0.3s text "Road to the Internet" (slide_up) + line draw (wipe_right)

1.8s line draw (wipe_up) + text "1969" (slide_up) + text "ARPANET" (fade)

3.4s line draw (wipe_down) + text "1983" (slide_down) + text "TCP/IP" (fade)

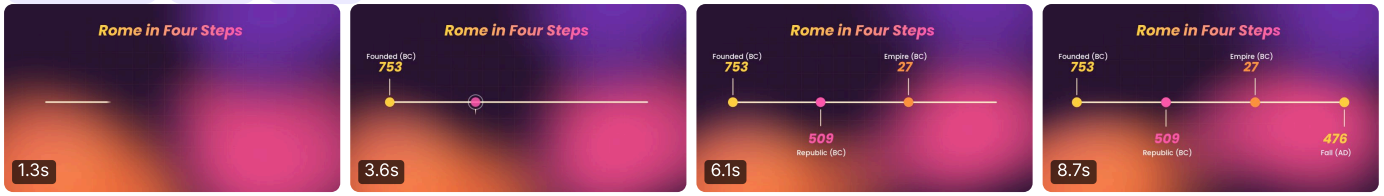

5.0s line draw (wipe_up) + text "1991" (slide_up) + text "World Wide Web" (fade)

6.6s line draw (wipe_down) + text "2007" (slide_down) + text "Smartphones" (fade)

Timeline: Ancient Rome

doc-11-timeline · 9.5s · sound: kinetic

Documentary history timeline

Idea: Horizontal line with 4 dated events appearing in order. **Use when:** History, progress, before/after sequences.

Narration (voice, timed to the visuals)

1.9s Tradition says Rome was founded in seven fifty three BC.

3.5s It became a republic around five oh nine BC.

5.1s Augustus began the empire in twenty seven BC.

6.7s The western empire fell in four seventy six.

Storyboard (what appears)

0.3s text "Rome in Four Steps" (slide_up) + line draw (wipe_right)

1.8s line draw (wipe_up) + text "753" (slide_up) + text "Founded (BC)" (fade)

3.4s line draw (wipe_down) + text "509" (slide_down) + text "Republic (BC)" (fade)

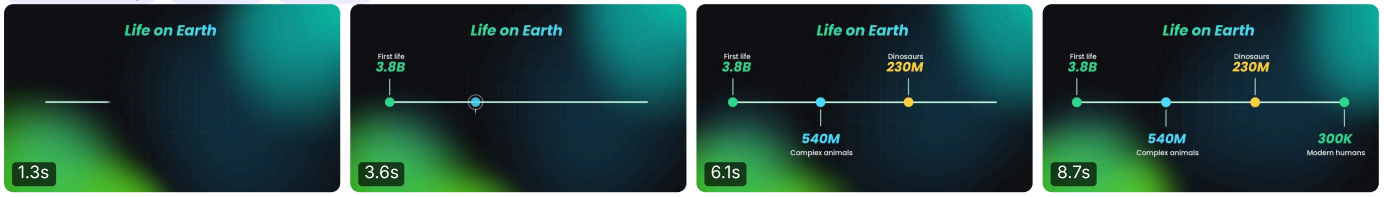

5.0s line draw (wipe_up) + text "27" (slide_up) + text "Empire (BC)" (fade)

6.6s line draw (wipe_down) + text "476" (slide_down) + text "Fall (AD)" (fade)

Timeline: Life on Earth

doc-12-timeline · 9.5s · sound: kinetic

Documentary science timeline

Idea: Horizontal line with 4 dated events appearing in order. **Use when:** History, progress, before/after sequences.

Narration (voice, timed to the visuals)

1.9s Life began almost four billion years ago.

3.5s Complex animals appeared about five hundred million years ago.

5.1s Dinosaurs ruled for millions of years.

6.7s Modern humans are very recent arrivals.

Storyboard (what appears)

0.3s text "Life on Earth" (slide_up) + line draw (wipe_right)

1.8s line draw (wipe_up) + text "3.8B" (slide_up) + text "First life" (fade)

3.4s line draw (wipe_down) + text "540M" (slide_down) + text "Complex animals" (fade)

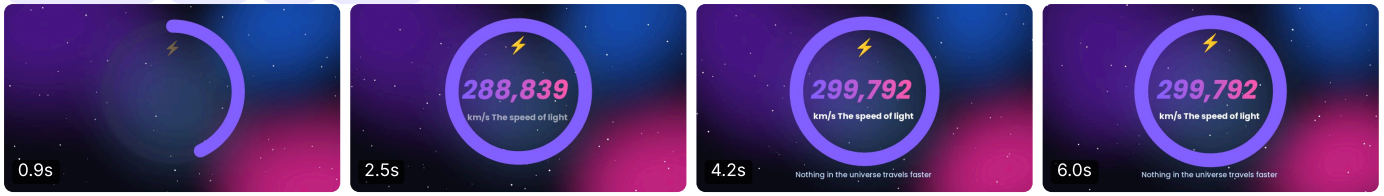

5.0s line draw (wipe_up) + text "230M" (slide_up) + text "Dinosaurs" (fade)

6.6s line draw (wipe_down) + text "300K" (slide_down) + text "Modern humans" (fade)

Stat: Speed of light

doc-13-big-stat · 6.5s · sound: kinetic

Documentary space stat number

Idea: Giant counting number inside a growing ring. **Use when:** One striking number that carries the point.

Narration (voice, timed to the visuals)

0.6s Here is a number worth remembering.

2.8s About three hundred thousand kilometers every second.

4.0s Nothing in the universe is faster.

Storyboard (what appears)

0.3s ring progress (fade) + emoji ⚡ (pop) + text "#" (slide_up)

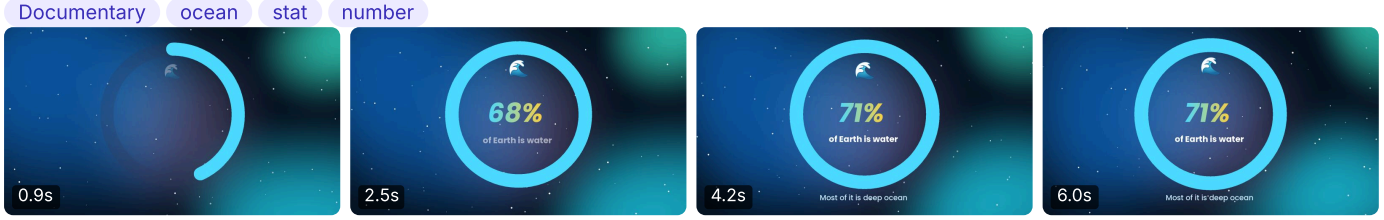

2.2s text "km/s The speed of light" (slide_up)

3.2s text "Nothing in the universe travels faster" (fade)

Stat: Ocean coverage

doc-14-big-stat · 6.5s · sound: kinetic

Documentary ocean stat number

Idea: Giant counting number inside a growing ring. **Use when:** One striking number that carries the point.

Narration (voice, timed to the visuals)

0.6s How much of Earth is covered in water?

2.8s About seventy one percent.

4.0s And most of that is deep, dark ocean.

Storyboard (what appears)

0.3s ring progress (fade) + emoji 🌊 (pop) + text "#%" (slide_up)

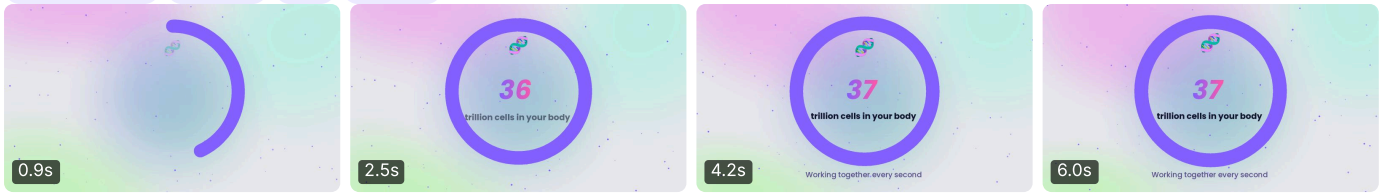

2.2s text "of Earth is water" (slide_up)

3.2s text "Most of it is deep ocean" (fade)

Stat: Human body cells

doc-15-big-stat · 6.5s · sound: kinetic

Documentary · science · stat · number

Idea: Giant counting number inside a growing ring. **Use when:** One striking number that carries the point.

Narration (voice, timed to the visuals)

0.6s Your body is a crowd.

2.8s Roughly thirty seven trillion cells.

4.0s All working together, every second.

Storyboard (what appears)

0.3s ring progress (fade) + emoji 🧬 (pop) + text "#" (slide_up)

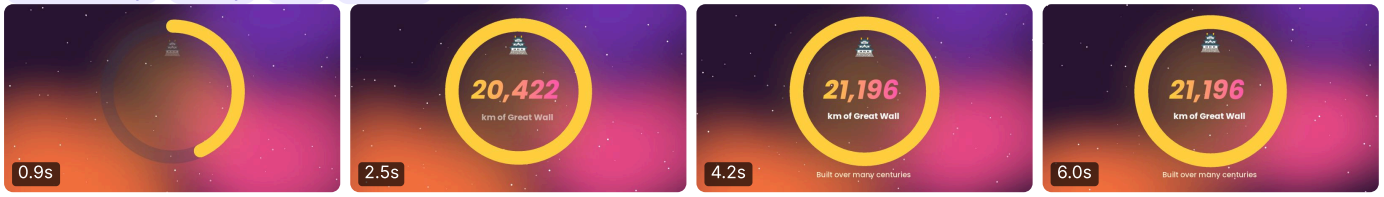

2.2s text "trillion cells in your body" (slide_up)

3.2s text "Working together every second" (fade)

Stat: Great Wall length

doc-16-big-stat · 6.5s · sound: kinetic

Documentary · history · stat · number

Idea: Giant counting number inside a growing ring. **Use when:** One striking number that carries the point.

Narration (voice, timed to the visuals)

0.6s The Great Wall of China is huge.

2.8s Surveys measure more than twenty one thousand kilometers.

4.0s It took many dynasties and centuries to build.

Storyboard (what appears)

0.3s ring progress (fade) + emoji 🏯 (pop) + text "#" (slide_up)

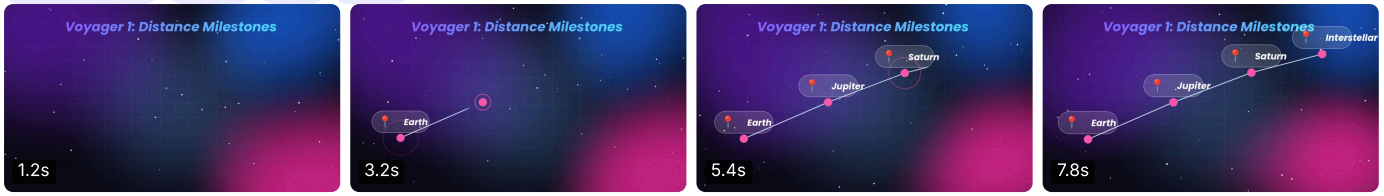

2.2s text "km of Great Wall" (slide_up)

3.2s text "Built over many centuries" (fade)

Map pings: Journey of a voyager

doc-17-ping-map · 8.5s · sound: kinetic

Documentary space map route

Idea: Grid map with pulsing location pings joined by a route. **Use when:** Journeys, trade routes, data paths.

Narration (voice, timed to the visuals)

1.7s Voyager one left Earth in nineteen seventy seven.
3.0s It flew past Jupiter.
4.3s Then Saturn.
5.6s And today it travels through interstellar space.

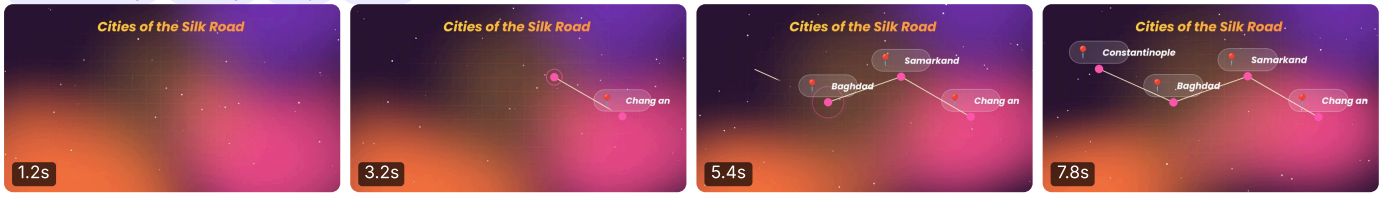

Storyboard (what appears)

0.3s text "Voyager 1: Distance Milestones" (slide_up)
1.6s chip "Earth" (pop) + line draw (wipe_right)
2.9s chip "Jupiter" (pop) + line draw (wipe_right)
4.2s chip "Saturn" (pop) + line draw (wipe_right)
5.5s chip "Interstellar" (pop)

Map pings: Silk Road cities

doc-18-ping-map · 8.5s · sound: kinetic

Documentary history map route

Idea: Grid map with pulsing location pings joined by a route. **Use when:** Journeys, trade routes, data paths.

Narration (voice, timed to the visuals)

1.7s The road began in Chang an.
3.0s It passed through Samarkand.
4.3s Merchants rested in Baghdad.
5.6s And goods reached Constantinople.

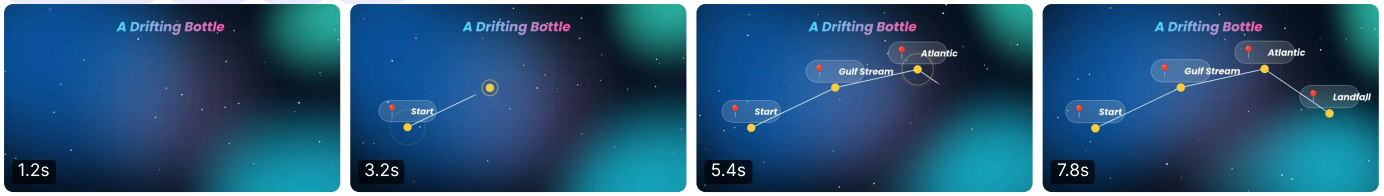

Storyboard (what appears)

0.3s text "Cities of the Silk Road" (slide_up)
1.6s chip "Chang an" (pop) + line draw (wipe_right)
2.9s chip "Samarkand" (pop) + line draw (wipe_right)
4.2s chip "Baghdad" (pop) + line draw (wipe_right)
5.5s chip "Constantinople" (pop)

Map pings: Ocean currents

doc-19-ping-map · 8.5s · sound: kinetic

Documentary · ocean · map · route

Idea: Grid map with pulsing location pings joined by a route. **Use when:** Journeys, trade routes, data paths.

Narration (voice, timed to the visuals)

1.7s Imagine a bottle dropped in the sea.
3.0s The Gulf Stream pulls it along.
4.3s It crosses the open Atlantic.
5.6s And weeks later, it reaches land.

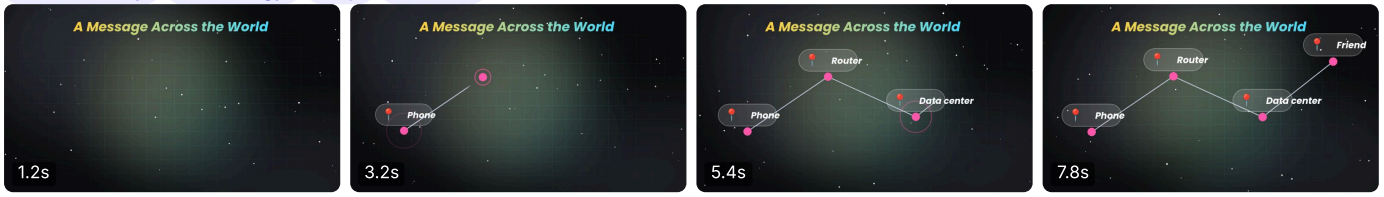

Storyboard (what appears)

0.3s text "A Drifting Bottle" (slide_up)
1.6s chip "Start" (pop) + line draw (wipe_right)
2.9s chip "Gulf Stream" (pop) + line draw (wipe_right)
4.2s chip "Atlantic" (pop) + line draw (wipe_right)
5.5s chip "Landfall" (pop)

Map pings: Data packet route

doc-20-ping-map · 8.5s · sound: kinetic

Documentary · technology · map · network

Idea: Grid map with pulsing location pings joined by a route. **Use when:** Journeys, trade routes, data paths.

Narration (voice, timed to the visuals)

1.7s You press send.
3.0s Your router picks it up.
4.3s A data center forwards it.
5.6s And your friend gets it in a blink.

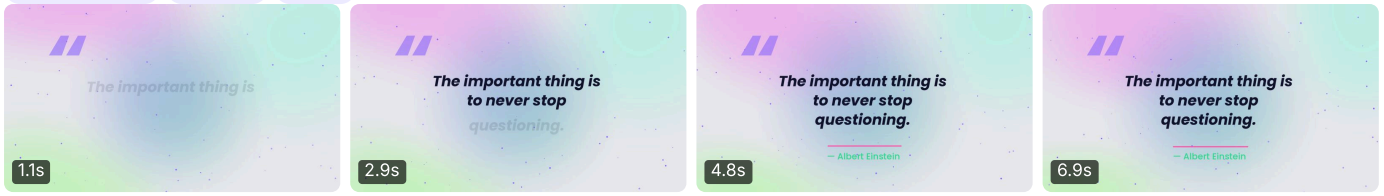

Storyboard (what appears)

0.3s text "A Message Across the World" (slide_up)
1.6s chip "Phone" (pop) + line draw (wipe_right)
2.9s chip "Router" (pop) + line draw (wipe_right)
4.2s chip "Data center" (pop) + line draw (wipe_right)
5.5s chip "Friend" (pop)

Quote: Curiosity

doc-21-quote-card · 7.5s · sound: kinetic

Documentary science quote

Idea: Huge quote mark and 3-line quote revealed line by line. **Use when:** A quote or statement the audience should feel.

Narration (voice, timed to the visuals)

0.5s A thought worth keeping.

1.0s The important thing is to never stop questioning.

5.0s Stay curious.

Storyboard (what appears)

0.3s text "“" (zoom) + text "The important thing is" (slide_up)

1.8s text "to never stop" (slide_up)

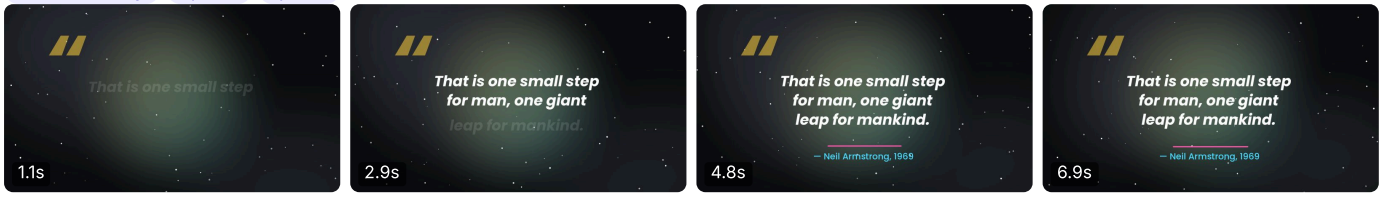

2.7s text "questioning." (slide_up) + line draw (wipe_right)

4.0s text "— Albert Einstein" (fade)

Quote: Small step

doc-22-quote-card · 7.5s · sound: kinetic

Documentary space quote

Idea: Huge quote mark and 3-line quote revealed line by line. **Use when:** A quote or statement the audience should feel.

Narration (voice, timed to the visuals)

0.5s Six words that echoed worldwide.

1.0s That is one small step for man, one giant leap for mankind.

5.0s A sentence from the surface of the Moon.

Storyboard (what appears)

0.3s text "“" (zoom) + text "That is one small step" (slide_up)

1.8s text "for man, one giant" (slide_up)

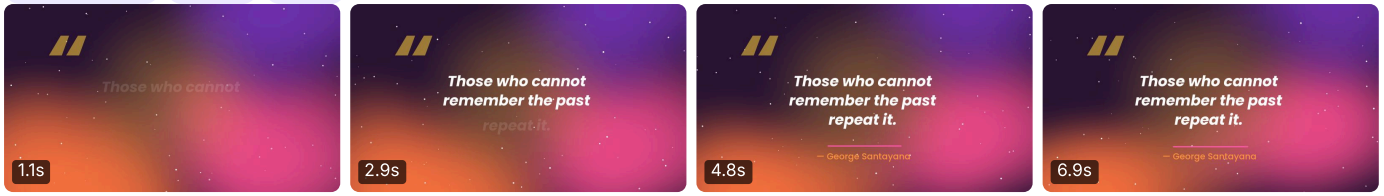

2.7s text "leap for mankind." (slide_up) + line draw (wipe_right)

4.0s text "— Neil Armstrong, 1969" (fade)

Quote: History repeats

doc-23-quote-card · 7.5s · sound: kinetic

Documentary history quote

Idea: Huge quote mark and 3-line quote revealed line by line. **Use when:** A quote or statement the audience should feel.

Narration (voice, timed to the visuals)

0.5s A warning from philosophy.

1.0s Those who cannot remember the past repeat it.

5.0s History is a teacher.

Storyboard (what appears)

0.3s text "“" (zoom) + text "Those who cannot" (slide_up)

1.8s text "remember the past" (slide_up)

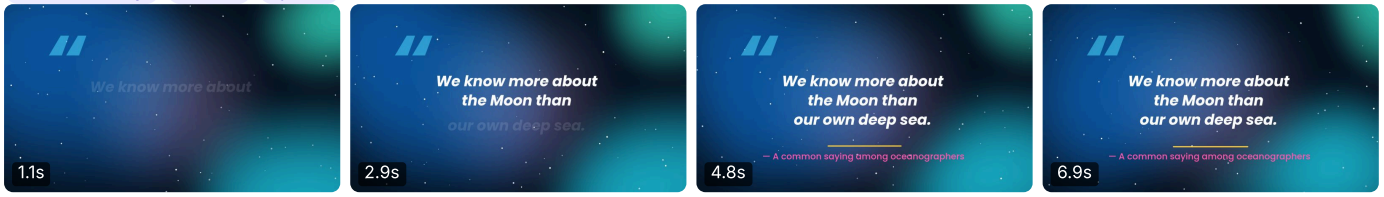

2.7s text "repeat it." (slide_up) + line draw (wipe_right)

4.0s text "— George Santayana" (fade)

Quote: Ocean wisdom

doc-24-quote-card · 7.5s · sound: kinetic

Documentary ocean quote

Idea: Huge quote mark and 3-line quote revealed line by line. **Use when:** A quote or statement the audience should feel.

Narration (voice, timed to the visuals)

0.5s A humbling fact.

1.0s We know more about the Moon than our own deep sea.

5.0s There is still so much to find.

Storyboard (what appears)

0.3s text "“" (zoom) + text "We know more about" (slide_up)

1.8s text "the Moon than" (slide_up)

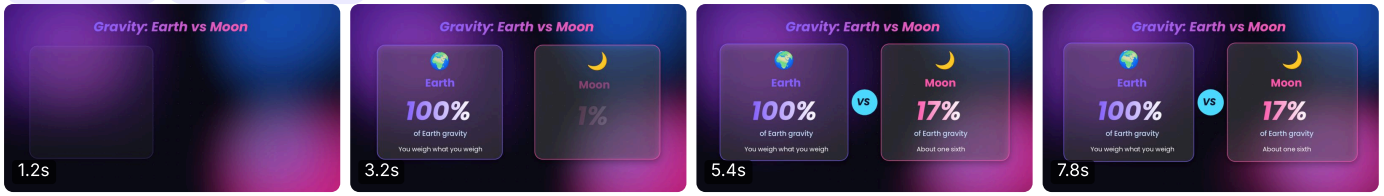

2.7s text "our own deep sea." (slide_up) + line draw (wipe_right)

4.0s text "— A common saying among oceanographers" (fade)

Compare: Earth vs Moon gravity

doc-25-split-compare · 8.5s · sound: kinetic

Documentary space compare

Idea: Two glass cards with counting numbers and a VS badge. **Use when:** Comparisons: then/now, A/B.

Narration (voice, timed to the visuals)

1.0s Compare gravity.

2.6s On Earth, it is our baseline.

4.6s On the Moon, it is only seventeen percent.

6.4s You could jump six times higher.

Storyboard (what appears)

0.3s text "Gravity: Earth vs Moon" (slide_up) + panel (slide_right)

1.3s emoji 🌍 (pop) + text "Earth" (slide_up) + text "#%" (slide_up) + text "of Earth gravity" (slide_up)

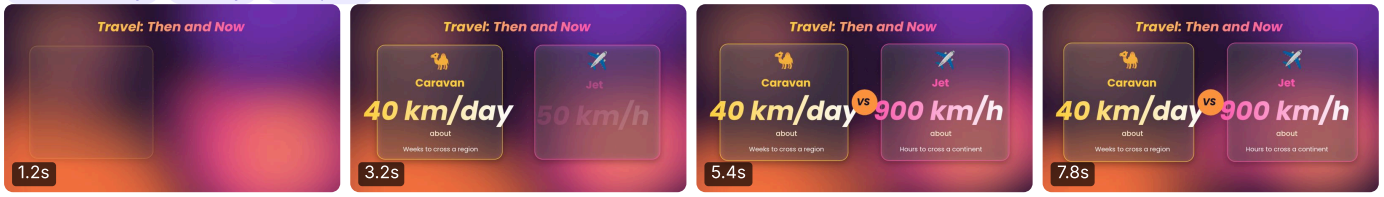

2.5s text "You weigh what you weigh" (slide_up) + panel (slide_left) + emoji 🌙 (pop) + text "Moon" (slide_up) + text "#%" (slide_up)

3.6s text "of Earth gravity" (slide_up) + text "VS" (pop) + text "About one sixth" (slide_up)

Compare: Ancient vs Modern

doc-26-split-compare · 8.5s · sound: kinetic

Documentary history compare

Idea: Two glass cards with counting numbers and a VS badge. **Use when:** Comparisons: then/now, A/B.

Narration (voice, timed to the visuals)

1.0s How fast did people travel?

2.6s A caravan covered around forty kilometers a day.

4.6s A jet flies about nine hundred an hour.

6.4s Distance has shrunk dramatically.

Storyboard (what appears)

0.3s text "Travel: Then and Now" (slide_up) + panel (slide_right)

1.3s emoji 🐪 (pop) + text "Caravan" (slide_up) + text "# km/day" (slide_up) + text "about" (slide_up)

2.5s text "Weeks to cross a region" (slide_up) + panel (slide_left) + emoji ✈️ (pop) + text "Jet" (slide_up) + text "# km/h" (slide_up)

3.6s text "about" (slide_up) + text "VS" (pop) + text "Hours to cross a continent" (slide_up)

Compare: Day vs night sea

doc-27-split-compare · 8.5s · sound: kinetic

Documentary · ocean · compare

Idea: Two glass cards with counting numbers and a VS badge. **Use when:** Comparisons: then/now, A/B.

Narration (voice, timed to the visuals)

1.0s The ocean has layers.

2.6s Sunlight reaches about two hundred meters.

4.6s Below one thousand meters, it is permanently dark.

6.4s Strange creatures live there.

Storyboard (what appears)

0.3s text "Ocean Light Zones" (slide_up) + panel (slide_right)

1.3s emoji ☀️ (pop) + text "Sunlight zone" (slide_up) + text "# m" (slide_up) + text "down to" (slide_up)

2.5s text "Most sea life lives here" (slide_up) + panel (slide_left) + emoji 🌑 (pop) + text "Midnight zone" (slide_up) + text "# m" (slide_up)

3.6s text "starts below" (slide_up) + text "VS" (pop) + text "No sunlight at all" (slide_up)

Compare: Old vs new chip

doc-28-split-compare · 8.5s · sound: kinetic

Documentary · technology · compare

Idea: Two glass cards with counting numbers and a VS badge. **Use when:** Comparisons: then/now, A/B.

Narration (voice, timed to the visuals)

1.0s Chips have grown enormously.

2.6s The first microprocessor had twenty three hundred transistors.

4.6s A modern phone chip holds billions.

6.4s That is progress at tiny scale.

Storyboard (what appears)

0.3s text "Transistors on a Chip" (slide_up) + panel (slide_right)

1.3s emoji 📟 (pop) + text "1971 chip" (slide_up) + text "#" (slide_up) + text "transistors" (slide_up)

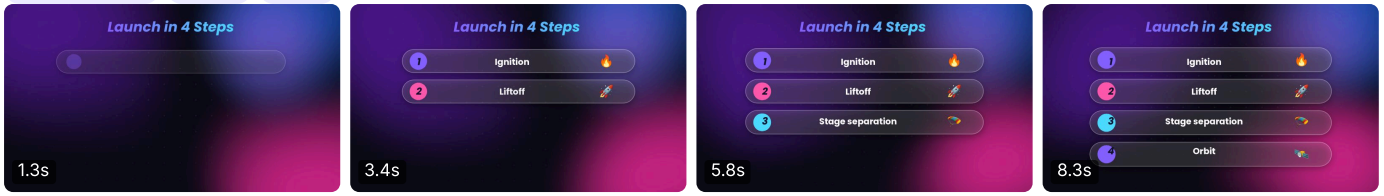

2.5s text "Intel 4004" (slide_up) + panel (slide_left) + emoji 📱 (pop) + text "Modern chip" (slide_up) + text "# billion" (slide_up)

3.6s text "transistors" (slide_up) + text "VS" (pop) + text "A flagship phone processor" (slide_up)

Steps: How a rocket launches

doc-29-steps-list · 9.0s · sound: kinetic

Documentary space steps

Idea: Numbered rows sliding in with emoji. **Use when:** Processes and how-it-works lists.

Narration (voice, timed to the visuals)

1.1s First, the engines ignite.

2.8s The rocket lifts off the pad.

4.5s Empty stages fall away.

6.2s And the payload reaches orbit.

Storyboard (what appears)

6.1s panel (slide_right) + text "4" (pop) + text "Show it" (fade) + emoji 🖥️ (pop)

Chart: Planets distance

doc-33-chart-reveal · 8.0s · sound: kinetic

Documentary · space · chart · bar

Idea: Chart that grows, plus a key-number side panel. **Use when:** Showing data and one takeaway.

Narration (voice, timed to the visuals)

0.6s Here are the planets by distance from the Sun.

2.4s Distances grow quickly beyond Mars.

4.6s Neptune sits thirty times farther than Earth.

Storyboard (what appears)

0.3s text "Distance from the Sun (AU)" (slide_up) + panel (zoom) + bar chart (fade)

1.4s panel (slide_left) + text "# AU" (slide_up)

3.0s text "Neptune" (slide_up) + text "is about 30 times farther than Earth" (slide_up)

Chart: Population growth

doc-34-chart-reveal · 8.0s · sound: kinetic

Documentary · history · chart · line

Idea: Chart that grows, plus a key-number side panel. **Use when:** Showing data and one takeaway.

Narration (voice, timed to the visuals)

0.6s For most of history, population grew slowly.

2.4s Then the twentieth century changed everything.

4.6s Today we are about eight billion.

Storyboard (what appears)

0.3s text "World Population (billions)" (slide_up) + panel (zoom) + line chart (fade)

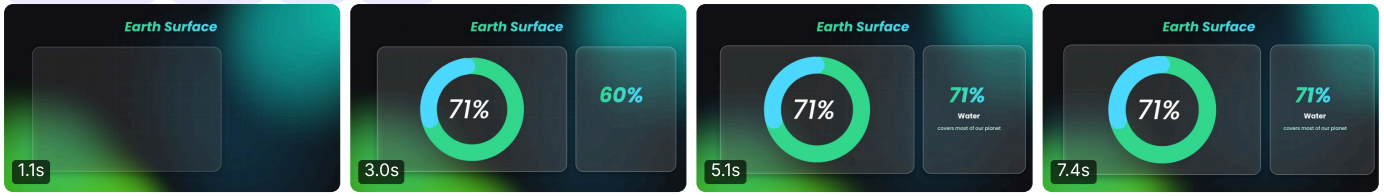

1.4s panel (slide_left) + text "#B" (slide_up)

3.0s text "Eight billion" (slide_up) + text "people alive today" (slide_up)

Chart: Earth composition

doc-35-chart-reveal · 8.0s · sound: kinetic

Documentary science chart donut

Idea: Chart that grows, plus a key-number side panel. **Use when:** Showing data and one takeaway.

Narration (voice, timed to the visuals)

0.6s Look at the surface of Earth.

2.4s Water and land are very unequal.

4.6s Seventy one percent is water.

Storyboard (what appears)

0.3s text "Earth Surface" (slide_up) + panel (zoom) + donut chart (fade)

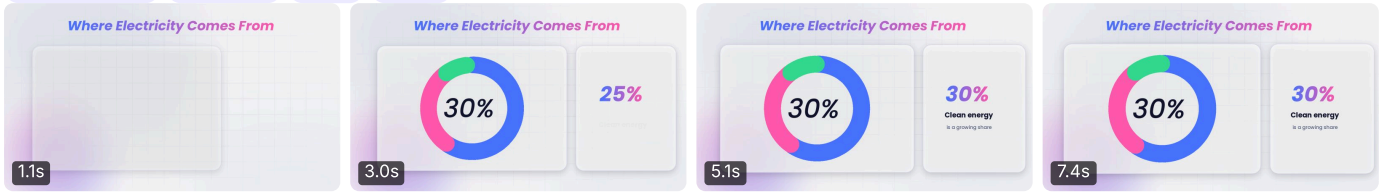

1.4s panel (slide_left) + text "#%" (slide_up)

3.0s text "Water" (slide_up) + text "covers most of our planet" (slide_up)

Chart: Energy mix

doc-36-chart-reveal · 8.0s · sound: kinetic

Documentary economy chart donut

Idea: Chart that grows, plus a key-number side panel. **Use when:** Showing data and one takeaway.

Narration (voice, timed to the visuals)

0.6s Electricity comes from many sources.

2.4s Fossil fuels still lead.

4.6s But clean energy keeps growing.

Storyboard (what appears)

0.3s text "Where Electricity Comes From" (slide_up) + panel (zoom) + donut chart (fade)

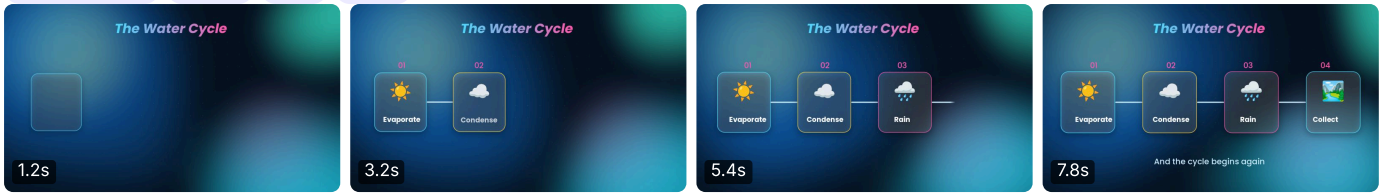

1.4s panel (slide_left) + text "#%" (slide_up)

3.0s text "Clean energy" (slide_up) + text "is a growing share" (slide_up)

Flow: Water cycle

doc-37-process-flow · 8.5s · sound: kinetic

Documentary nature flow cycle

Idea: 4 connected nodes with emoji and step numbers. **Use when:** Cycles and pipelines.

Narration (voice, timed to the visuals)

1.1s The sun heats the water.

2.6s Vapor rises and forms clouds.

4.1s Clouds release rain.

5.6s Water gathers and flows back.

Storyboard (what appears)

0.3s text "The Water Cycle" (slide_up) + panel (pop) + emoji ☀️ (pop)

1.3s text "01" (slide_up) + text "Evaporate" (slide_up) + line draw (wipe_right)

2.5s panel (pop) + emoji ☁️ (pop) + text "02" (slide_up) + text "Condense" (slide_up) + line draw (wipe_right)

4.0s panel (pop) + emoji 🚚 (pop) + text "03" (slide_up) + text "Ship" (slide_up)

4.9s line draw (wipe_right) + panel (pop) + emoji 🛒 (pop) + text "04" (slide_up)

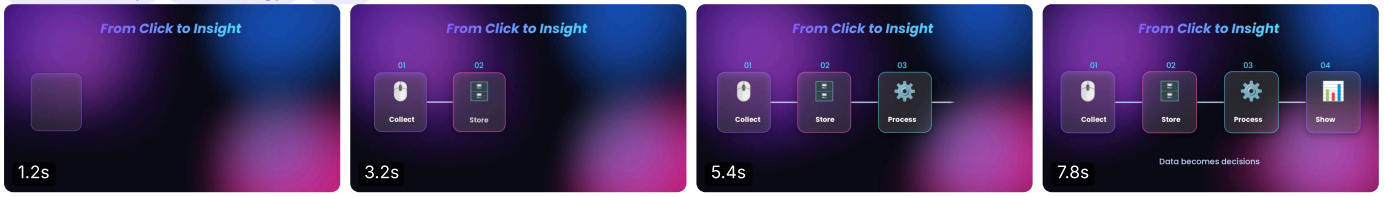

5.9s text "Sell" (slide_up)

7.0s text "Every product has a journey" (slide_up)

Flow: Data pipeline

doc-40-process-flow · 8.5s · sound: kinetic

Documentary · technology · flow

Idea: 4 connected nodes with emoji and step numbers. **Use when:** Cycles and pipelines.

Narration (voice, timed to the visuals)

1.1s Events are collected.

2.6s They are stored safely.

4.1s Then processed into numbers.

5.6s And shown as charts.

Storyboard (what appears)

0.3s text "From Click to Insight" (slide_up) + panel (pop) + emoji 🖱️ (pop)

1.3s text "01" (slide_up) + text "Collect" (slide_up) + line draw (wipe_right)

2.5s panel (pop) + emoji 🗄️ (pop) + text "02" (slide_up) + text "Store" (slide_up) + line draw (wipe_right)

4.0s panel (pop) + emoji ⚙️ (pop) + text "03" (slide_up) + text "Process" (slide_up)

4.9s line draw (wipe_right) + panel (pop) + emoji 📊 (pop) + text "04" (slide_up)

5.9s text "Show" (slide_up)

7.0s text "Data becomes decisions" (slide_up)

Orbit: Inner planets

doc-41-orbit-diagram · 10.0s · sound: kinetic

Documentary space orbit diagram

Idea: Central body with orbit rings and moving bodies, legend chips. **Use when:** Solar system, atoms, any orbiting model.

Narration (voice, timed to the visuals)

- `1.2s` Mercury circles fastest.
- `1.9s` Venus is next.
- `2.6s` Earth is our home.
- `3.3s` And Mars is the red neighbor.

Storyboard (what appears)

- `0.3s` text "The Inner Planets" (slide_up)
- `1.4s` chip "Mercury" (slide_left) + chip "Venus" (slide_left)
- `2.4s` chip "Earth" (slide_left)
- `3.5s` chip "Mars" (slide_left)

Orbit: Moon around Earth

doc-42-orbit-diagram · 10.0s · sound: kinetic

Documentary space orbit diagram

Idea: Central body with orbit rings and moving bodies, legend chips. **Use when:** Solar system, atoms, any orbiting model.

Narration (voice, timed to the visuals)

- `1.2s` The Moon takes about a month to orbit.
- `1.9s` Satellites circle much faster.

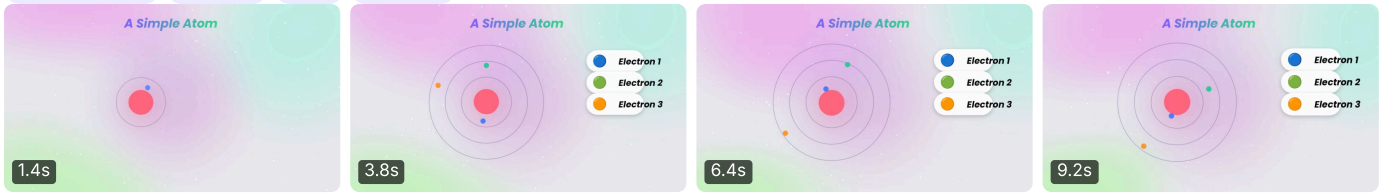

Storyboard (what appears)

- `0.3s` text "Earth and Its Moon" (slide_up)
- `1.4s` chip "Moon" (slide_left) + chip "Satellite" (slide_left)

Orbit: Atom model

doc-43-orbit-diagram · 10.0s · sound: kinetic

Documentary science orbit diagram

Idea: Central body with orbit rings and moving bodies, legend chips. **Use when:** Solar system, atoms, any orbiting model.

Narration (voice, timed to the visuals)

- `1.2s` At the center is the nucleus.
- `1.9s` Electrons surround it.
- `2.6s` Each in its own shell.

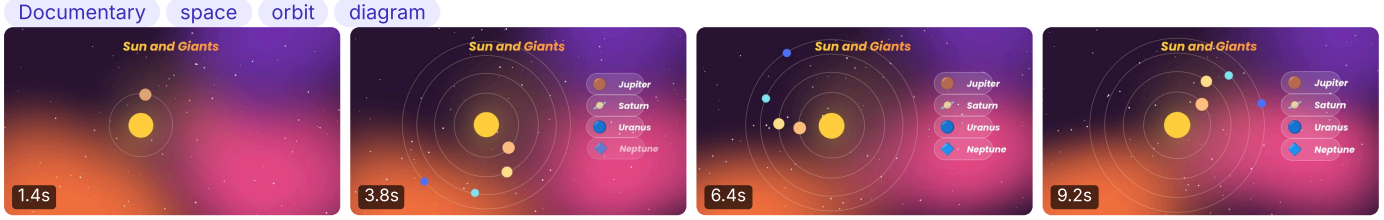

Storyboard (what appears)

- `0.3s` text "A Simple Atom" (slide_up)
- `1.4s` chip "Electron 1" (slide_left) + chip "Electron 2" (slide_left)
- `2.4s` chip "Electron 3" (slide_left)

Orbit: Solar system tour

doc-44-orbit-diagram · 10.0s · sound: kinetic

Documentary space orbit diagram

Idea: Central body with orbit rings and moving bodies, legend chips. **Use when:** Solar system, atoms, any orbiting model.

Narration (voice, timed to the visuals)

- `1.2s` Jupiter is the largest planet.
- `1.9s` Saturn is famous for its rings.
- `2.6s` Uranus tilts on its side.
- `3.3s` Neptune is the farthest.

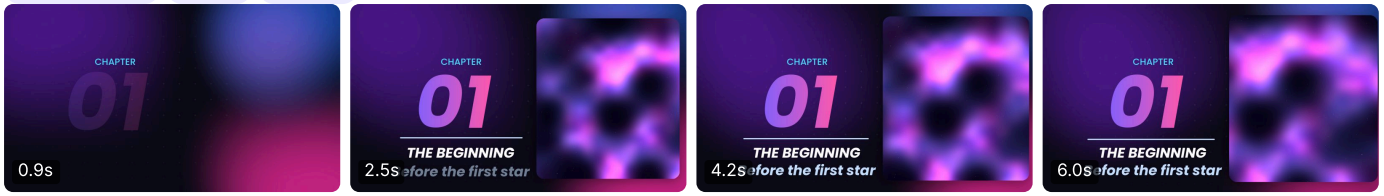

Storyboard (what appears)

- `0.3s` text "Sun and Giants" (slide_up)
- `1.4s` chip "Jupiter" (slide_left) + chip "Saturn" (slide_left)
- `2.4s` chip "Uranus" (slide_left)
- `3.5s` chip "Neptune" (slide_left)

Chapter: The beginning

doc-45-chapter-opener · 6.5s · sound: kinetic

Documentary space chapter

Idea: Giant chapter number, title and photo panel. **Use when:** Splitting a long video into chapters.

Narration (voice, timed to the visuals)

0.6s Chapter one.

2.0s The beginning.

3.8s Before the first star, there was darkness.
