Motion Graphics and SaaS Animation Storyboard Reference

Scene by scene breakdown of 8 reference videos: SFX, motion graphics, SaaS UI animation and edit rhythm. Written so an AI chatbot can read the design language and recreate or remix it.

ID	Video	Format	Length	Scenes
V1	Robin: AI Chief of Staff (SaaS launch intro)	Phone footage of an After Effects screen (inner comp is 16:9)	17.5 s	6
V2	Claude-style product intro by aymotionstudio	16:9 landscape	17.5 s	7
V3	Aqib Javed: Flutter developer portfolio promo	16:9 landscape	23.4 s	10
V4	Higgsfield Katana x Claude Motion explainer	Vertical phone footage of a monitor (inner comp is 16:9)	60 s	15
V5	Video editor promo: hook and CTA screens	16:9 landscape (25 fps)	24.9 s	2
V6	divyaozo: 'Attention is expensive' brand explainer	9:16 vertical	26.4 s	8
V7	Krish: motion designer self-intro (iOS UI style)	1:1 square	33.7 s	15
V8	OpenAI-style product launch film (Build in one place)	16:9 landscape	31.1 s	14

How an AI chatbot should read this document

TIME	Start and end second of the scene inside the original video.
VISUAL	What is physically on screen: background, objects, layout, colors.
TEXT ON SCREEN	The exact words shown. Use these to see how copy is written for motion.
MOTION	How things move or transition: easing, overshoot, blur, camera, wipes.
SFX	Sound design suggestion for that moment. Audio peaks were measured from the real files, the sound type is inferred from the motion.
AUDIO HITS	Seconds where the file's audio has a sharp peak. Cuts and animations are timed to these.

Note: scene timings are read from frames sampled every 2 seconds, so they are accurate to about plus or minus 1 second. Audio peak times are measured, but sound names (whoosh, pop, riser) are the best match for what the motion needs.

Part 1. Design vocabulary used in these videos

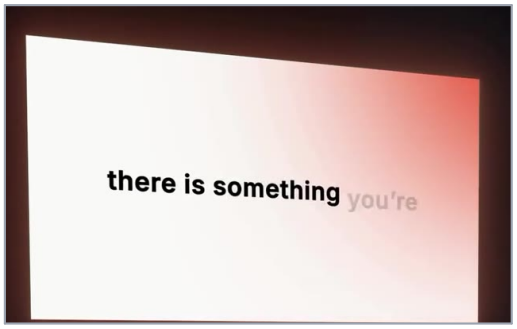

When you describe or build one of these edits, use these exact terms. They repeat across almost every video.

Kinetic typography	Text that is the animation: words slam in, slide, stretch, blur and change color on the beat. Seen heavily in V4 and V7.
Typewriter with caret	Letters appear one by one with a blinking cursor. Often paired with highlight boxes on key words (V2, V4, V7, V3).
Blur-in text and motion blur	Text starts blurred and sharpens, or streaks sideways with color fringing (chromatic aberration). Makes text feel fast and premium (V7, V1).
Glass UI card (glassmorphism)	Rounded frosted panel with soft shadow and a faint glow. Used for chat bars, widgets and cards (V2, V3, V7, V8).
Fake product UI mockup	A believable app, chat input, code editor or browser built as an animation, with cursor, dropdowns and click states. This is the core of SaaS animation.
Cursor click interaction	Arrow or hand cursor travels to a button, button squishes, then the scene changes. Always has a click SFX (V3, V7).
Hub and spoke diagram	A central logo or mascot with lines drawn out to app icons that pop in at each line end (V1).
Orbit layout	Icons circle around a center label with a slow rotation (V7).
Hexagon badge with leader line	Icon inside a hexagon with bracket corners, connected by a thin line to a label (V6).
Pill chips pile	Rounded pill labels pop in one after another, alternating filled and outlined (V6). Each chip is its own pop sound.
Hard color flip	A hard cut between light and dark (or white and purple) on a beat to reset attention (V1, V3, V8).
Gradient glow background	Soft blurred orange, violet or blue glow behind the content. Usually at the bottom or side edges (V2, V3, V4).
Camera push-in and pull-out	Fake camera zooms into a UI element or pulls out to reveal the whole layout. Uses an expo ease so it starts fast and settles slowly (V2, V3).
Trim path line draw	A line or curve that draws itself. Used for flows, branches, brackets and underlines (V1, V4, V8).
Counter and progress	Numbers that tick up (TIME SPENT 7H to 16H) or sliders that move. Great for proving a point visually (V4, V7).
Logo hold outro	Logo or handle scales in with a soft glow and holds 1 to 3 seconds. Ends almost every video (V2, V4, V7, V8).

V1 Robin: AI Chief of Staff (SaaS launch intro)

FORMAT Phone footage of an After Effects screen (inner comp is 16:9)	**LENGTH** 17.5 s
NICHE AI assistant / SaaS product launch	**SOURCE FILE** 3755.mp4
PALETTE White, coral red #E8604C, black, ember orange #F28A2E	**TYPE** Clean bold grotesk sans (Inter / Helvetica style), light weight used for contrast words

STYLE DNA Light-to-dark flip. White and coral gradient opens with a problem statement, then a hard cut to black with orange glow. Floating app icons, then a hub-and-spoke diagram around a small mascot.

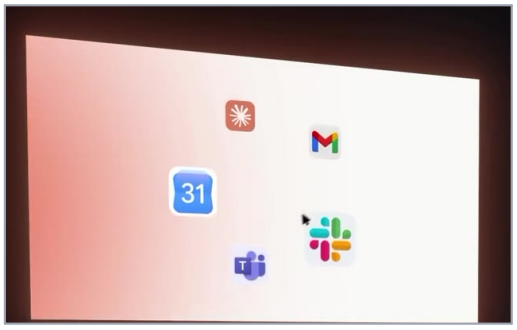

SCENE 1 0 to 2 s Problem hook text

VISUAL White canvas with a soft coral gradient bleeding in from the right edge. One line of text, centered.
TEXT ON SCREEN there is something you're (second phrase fades in lighter)
MOTION Text fades and rises in with slight blur-to-sharp. Gradient is static, background feels calm.
SFX Soft whoosh or airy riser under the text.
AUDIO HITS 1.0 s

SCENE 2 2 to 4 s Word swap plus app icons drop in

VISUAL Big coral word replaces the first line. Rounded glass-style app icons (Gmail, Teams, Calendar 31, Slack, Claude-style asterisk) fall in around it at different sizes and blur levels.
TEXT ON SCREEN Forgetting
MOTION Icons fall with bounce and depth of field (near icons bigger and blurred). Word changes with a quick scale pop.
SFX Pop per icon (3 to 4 pops), light whoosh on word change.
AUDIO HITS 2.6 s, 3.6 s

SCENE 3 4 to 8 s Icons drift and cluster

VISUAL Icons float slowly, rotate a little and gather toward the center on the light background. A cursor arrow moves across the frame.
TEXT ON SCREEN (none)
MOTION Slow ease drift with slight rotation, parallax between big and small icons. The cursor adds a UI feel.
SFX Quiet ambient bed, soft ticks when icons settle.
AUDIO HITS 5.0 s, 6.6 s

SCENE 4 8 to 10 s Hard flip to dark mascot reveal

VISUAL Light screen cuts to black. An orange glowing ring of pixel blocks bursts around a small round black mascot face. Name label below.
TEXT ON SCREEN Robin
MOTION Hard cut on a beat, ring of blocks scales out with glow, mascot pops with overshoot.
SFX Big impact hit plus short reverse riser right before the cut.
AUDIO HITS 8.2 s, 9.3 s

SCENE 5 **10 to 12 s Title card**

VISUAL Mascot sits under a two-weight title. Warm orange glow in the lower right corner.
TEXT ON SCREEN AI Chief of Staff
MOTION Title types or fades in. 'AI Chief of' is medium weight, 'Staff' is lighter gray. Mascot blinks.
SFX Soft whoosh, tiny sparkle.
AUDIO HITS 10.2 s

SCENE 6 **12 to 17 s Hub and spoke integrations**

VISUAL Mascot in the center. Curved red-orange lines draw out like circuit traces to app icons (Gmail, Teams, Calendar, Claude-style asterisk, WhatsApp, Slack). Dust particles float in the background.
TEXT ON SCREEN (none, icons carry the message)
MOTION Trim-path line draw, each icon pops in at the end of its line with a glow pulse. Staggered by 4 to 6 frames.
SFX One pop or blip per icon (about 6 hits). Soft whoosh as lines draw.
AUDIO HITS 12.0 s, 13.9 s, 15.3 s, 16.0 s

V2 Claude-style product intro by aymotionstudio

FORMAT 16:9 landscape

LENGTH 17.5 s

NICHE AI chatbot / dev tool promo

SOURCE FILE 3821.mp4

PALETTE Charcoal #1B1B1B, Claude orange #D9694A, cream white, ember glow

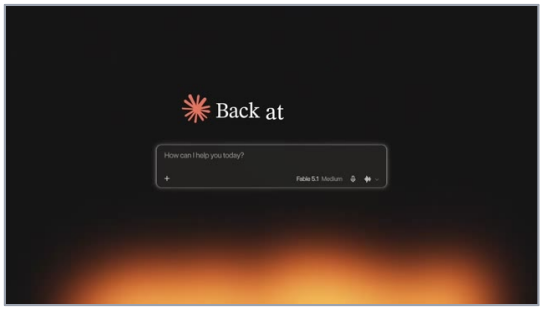

TYPE Monospace (JetBrains Mono / Fira style) for code, soft serif wordmark for the logo, clean sans for UI

STYLE DNA Dark charcoal canvas with orange glow. Monospace terminal text, a giant chat input typing a prompt, a code-file tree, a scrolling feature list, then a calm logo hold and studio sign-off.

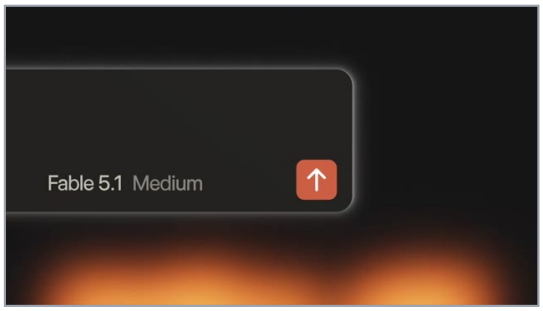

SCENE 1 **0 to 2 s Glitch terminal text**

VISUAL Black with a dot-matrix texture. A small monospace line in the center with a coral word and a white word.
TEXT ON SCREEN Comple? code+
MOTION Text types and glitches (characters scramble before settling).
SFX Rapid keyboard ticks, digital glitch blip.

SCENE 2 **2 to 4 s Logo and chat bar appear**

VISUAL Asterisk logo plus a short word above a small chat input box. A blurred orange glow rises from the bottom edge.
TEXT ON SCREEN Back / How can I help you today? / Fable 5.1 Medium
MOTION Elements fade in from slight scale-down. Glow breathes upward.
SFX Soft pop at the logo, UI click tone. Audio hit near 2.4 s.
AUDIO HITS 2.4 s

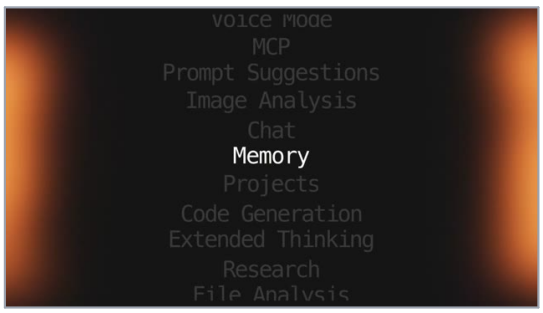

SCENE 3 **4 to 8 s Camera zoom into the typing**

VISUAL Camera pushes hard into the input box. The prompt types out large. A mosaic of orange pixel blocks dissolves across and the send button appears.
TEXT ON SCREEN Build me a SaaS dashboa|
MOTION Fast 2D zoom into UI, typewriter with blinking cursor, pixel-dissolve transition (blocks scale 0 to 100 and wipe).
SFX Typing ticks (one per character), digital dissolve crackle, click on the send button.

SCENE 4 **8 to 10 s Code file tree builds**

VISUAL Left aligned tree view with folders and files that appear line by line with thin indent lines.
TEXT ON SCREEN Code Files, Frontend, Backend, Dashboard, Components, UserAuth
MOTION Sequential fade-in per line, 3 frame stagger, nested lines draw downward.
SFX Light tick per line.

SCENE 5 **10 to 12 s Feature wheel scroll**

VISUAL A vertical list scrolls like a slot picker. Center item is white and sharp, others dim gray and fade out at the top and bottom. Orange glow on both side edges.
TEXT ON SCREEN Voice Mode, MCP, Prompt Suggestions, Image Analysis, Chat, Memory, Projects, Code Generation, Extended Thinking, Research, File Analysis
MOTION Continuous scroll with ease-out stop. Center item scales up and brightens, edge items blur and fade (mask).
SFX Rolling tick sound that slows down as it settles.

SCENE 6 12 to 16 s Logo hold

VISUAL Orange asterisk logo and the serif wordmark centered on near-black. Very calm.
TEXT ON SCREEN Claude
MOTION Logo scales in from 90 percent with slight glow, then holds for 2 to 3 seconds.
SFX Logo hit with a short low sub boom at about 13.3 s, then silence or soft pad.
AUDIO HITS 13.3 s

SCENE 7 16 to 17.5 s Studio sign-off

VISUAL White glowing handle in the center of a dark vignette.
TEXT ON SCREEN aymotionstudio
MOTION Text fades in with outer glow bloom.
SFX Soft shimmer.

V3 Aqib Javed: Flutter developer portfolio promo

FORMAT 16:9 landscape

LENGTH 23.4 s

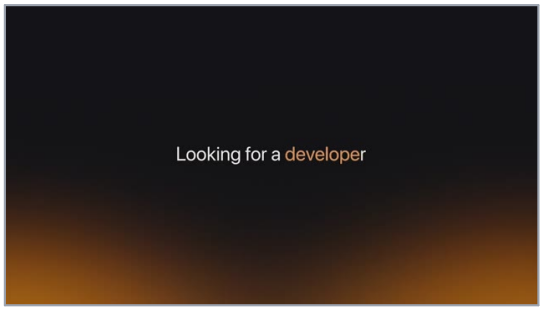

NICHE Freelancer self-promo (developer hiring)

SOURCE FILE 3823.mp4

PALETTE Near-black #101216, orange #D97A2B, white, accent green for the app mockup

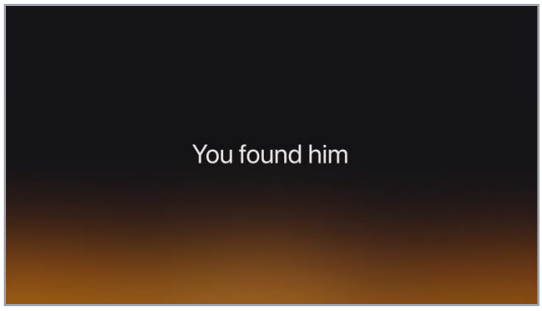

TYPE Inter / Geist style sans, tight tracking on headings, small mono labels

STYLE DNA Dark near-black with an orange gradient glow from below. Short pitch lines, floating UI mockups inside glowing frames, a services card, a CTA button with cursor click, and a typed closing line.

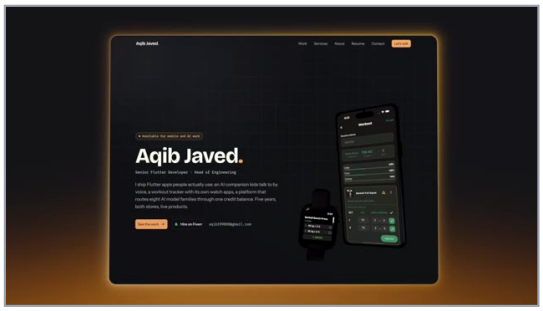

SCENE 1 **0 to 2 s Question hook**

VISUAL Small centered line on dark with an orange glow rising from the bottom. One word has orange letters.
TEXT ON SCREEN Looking for a developer
MOTION Fade and rise in. Highlight letters tinted orange.
SFX Soft riser.

SCENE 2 **2 to 4 s Answer line**

VISUAL Same canvas, larger text replaces the question.
TEXT ON SCREEN You found him
MOTION Quick crossfade with scale pop (95 to 100 percent).
SFX Impact tick. Audio hit near 3.4 s.
AUDIO HITS 3.4 s

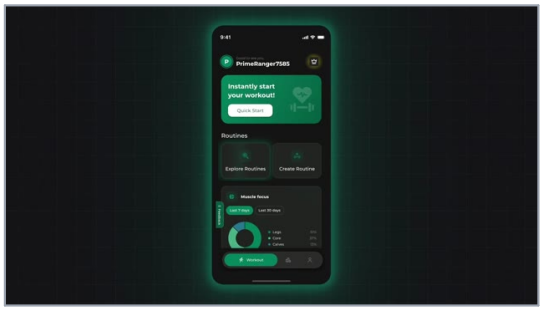

SCENE 3 **4 to 6 s Website mockup reveal**

VISUAL A browser mockup of the portfolio floats in a thin orange glowing outline. Phone and smartwatch mockups on the right.
TEXT ON SCREEN Aqib Javed. (hero page)
MOTION Mockup scales in from the center with a slight 3D tilt and soft shadow.
SFX Whoosh plus soft hit at about 4.8 s.
AUDIO HITS 4.8 s, 5.6 s

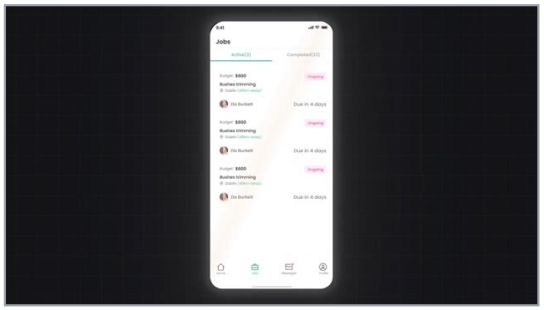

SCENE 4 **6 to 8 s Push into hero section**

VISUAL Camera zooms into the hero. Big name with an orange full stop, a small status badge, role text, and a cursor hovering over the button.
TEXT ON SCREEN Aqib Javed. Senior Flutter Developer. See the work
MOTION Smooth push-in with ease, cursor moves into the button and the button highlights.
SFX Cursor click at about 5.6 s.

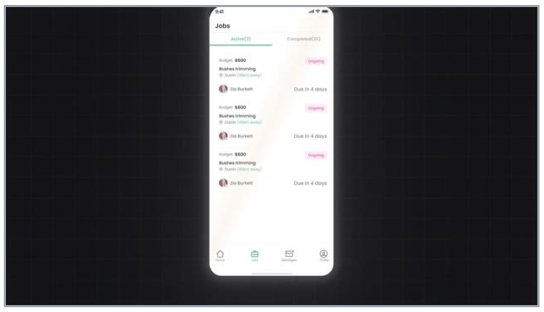

SCENE 5 **8 to 10 s Green app screen**

VISUAL A phone in a green glowing outline on a dark grid background shows a workout app.
TEXT ON SCREEN (app UI)
MOTION Phone slides up and rotates slightly, grid lines move in parallax, green glow pulses.
SFX Whoosh and tick at about 8.1 s and 8.8 s.
AUDIO HITS 8.1 s, 8.8 s

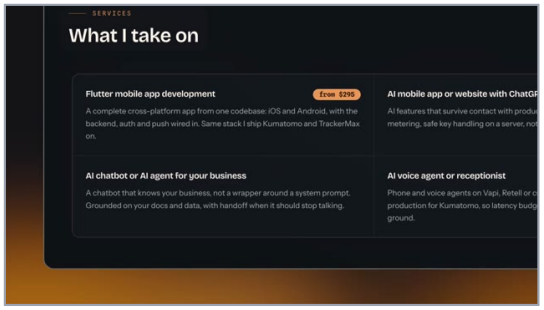

SCENE 6 10 to 12 s White jobs app screen

VISUAL A white phone UI with a Jobs list floats on the dark. A diagonal light streak sweeps across it.
TEXT ON SCREEN (app UI: Jobs list)
MOTION Light sweep (gradient wipe) over the phone, slight float up and down.
SFX Swipe whoosh.

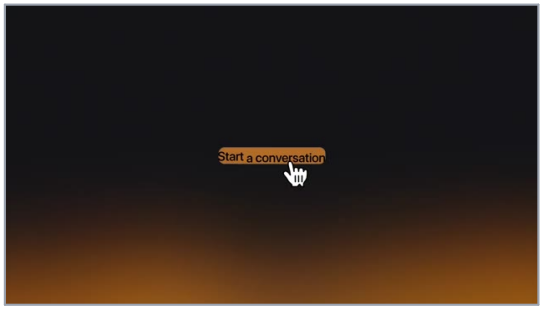

SCENE 7 12 to 14 s Experience stat

VISUAL One orange line centered on dark.
TEXT ON SCREEN 5+ years shipping flutter
MOTION Fade and blur-in, slight upward drift.
SFX Pop at about 12.1 s, small tick at 12.8 s.
AUDIO HITS 12.1 s, 12.8 s, 13.6 s

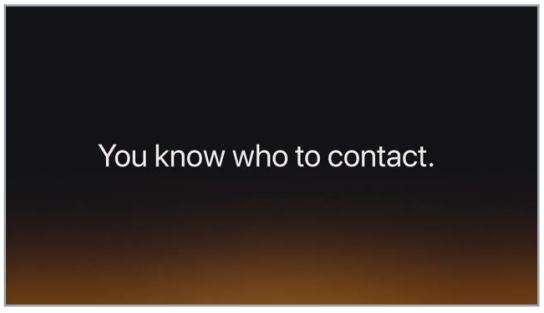

SCENE 8 14 to 18 s Services card

VISUAL A large card titled 'What I take on' slides in, then pulls back to show 4 service boxes with small orange price tags.
TEXT ON SCREEN What I take on. Flutter mobile app development. AI chatbot for your business. AI voice agent. From $295
MOTION Card slides in from the right with overshoot, then camera dolly-out reveals the full card. Price tags pop with a tiny scale bounce.
SFX Slide whoosh at 13.6 s, tag pops at 16.1 s and 16.8 s.
AUDIO HITS 16.1 s, 16.8 s

SCENE 9 18 to 20 s CTA button click

VISUAL An orange rounded button on the dark with a cursor arriving from below.
TEXT ON SCREEN Start a conversation
MOTION Cursor moves in, button depresses slightly on click then glows.
SFX Mouse click sound at about 18.4 s.
AUDIO HITS 18.4 s

SCENE 10 20 to 23.4 s Typed closing line

VISUAL Large white text types out on dark with the orange glow at the bottom, then settles smaller.
TEXT ON SCREEN You know who to contact.
MOTION Typewriter with blinking caret, final scale-down settle.
SFX Typing ticks at about 20.1 s and 20.8 s, soft end tone.
AUDIO HITS 20.1 s, 20.8 s

V4 Higgsfield Katana x Claude Motion explainer

FORMAT Vertical phone footage of a monitor (inner comp is 16:9)

LENGTH 60 s

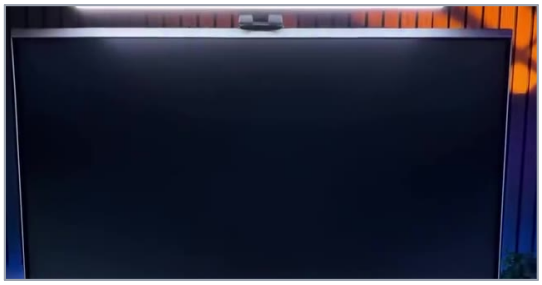

NICHE AI motion graphics tool explainer (very high energy)

SOURCE FILE 3825.mp4

PALETTE Near-black navy #0A0B14, electric violet #7B5CFF, magenta pink #FF2E93, white

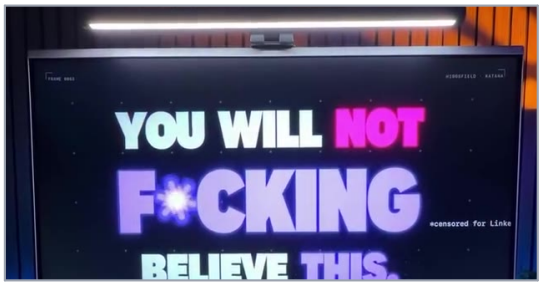

TYPE Heavy italic display sans for slams (Anton / Archivo Black style), monospace for UI labels and HUD

STYLE DNA Neon purple, pink and white heavy kinetic type on a dark dot-grid. UI diagrams (flow chart, prompt box, timeline), highlighted subtitle chips, and a 'time spent' counter that climbs.

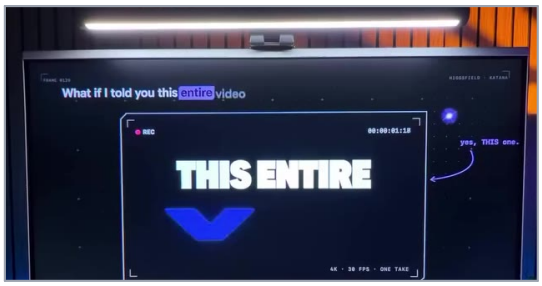

SCENE 1 0 to 2 s Slam title builds

VISUAL Bold white extruded letters with a violet light streak passing underneath. Dot grid background.
TEXT ON SCREEN YOU WILL
MOTION Letters pop in with scale overshoot and a light sweep reveals them.
SFX Cinematic hit at about 0.3 s and 0.9 s.
AUDIO HITS 0.3 s, 0.9 s

SCENE 2 2 to 4 s Full phrase with color words

VISUAL Three stacked lines, key words colored: NOT is pink, one word has a glowing star on the asterisk. Tiny note tag at the side.
TEXT ON SCREEN YOU WILL NOT F*CKING BELIEVE THIS.
MOTION Word by word slam in, each with overshoot and a glow flash. Star flare on the censored letter.
SFX Word-hit impacts, then a bigger hit at 3.5 s.
AUDIO HITS 3.5 s

SCENE 3 4 to 6 s HUD frame plus subtitle chip

VISUAL A REC style frame with corner brackets and a timecode. Big white words inside. Top-left subtitle with the active word on a violet highlight box. A hand-drawn arrow with a note.
TEXT ON SCREEN What if I told you this entire / THIS ENTIRE / yes, THIS one.
MOTION Frame draws on from the corners, subtitle highlight jumps word to word, doodle arrow draws with trim path.
SFX Camera beep, tick per highlighted word.

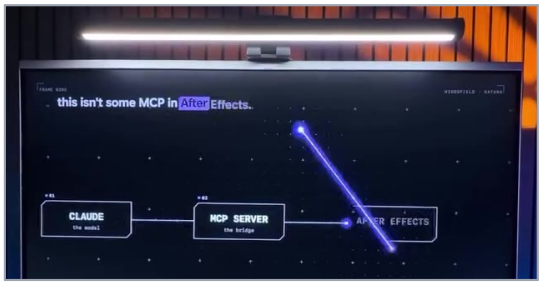

SCENE 4 6 to 8 s After Effects window mockup

VISUAL A fake After Effects window with a layer list and timeline bars appears and tilts in.
TEXT ON SCREEN without even opening (After Effects)
MOTION UI panel slides up with slight 3D tilt, bars animate left to right.
SFX Slide whoosh, soft UI blips.

SCENE 5 8 to 10 s Negation slam with glitch

VISUAL White word and a pink word. The pink word melts and distorts as it lands.
TEXT ON SCREEN AND NO.
MOTION Hard cut, text slams in, second word liquid-distorts and shakes.
SFX Heavy impact at 9.2 s with a distortion zap.
AUDIO HITS 9.2 s

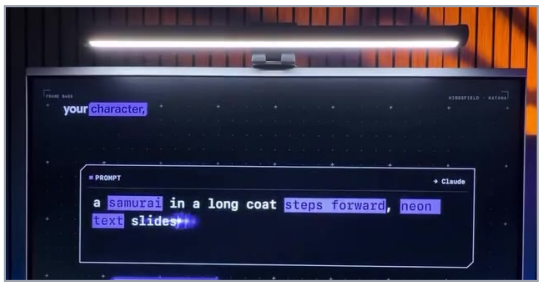

SCENE 6 10 to 12 s Claude to MCP to tool diagram

VISUAL Two outlined boxes joined by a line (the model and the bridge). A light spark travels along the line and shoots off diagonally.
TEXT ON SCREEN this isn't some MCP in After. CLAUDE the model. MCP SERVER the bridge
MOTION Boxes pop in, line draws, glowing particle runs along the path.
SFX Blip per box, zip for the spark.

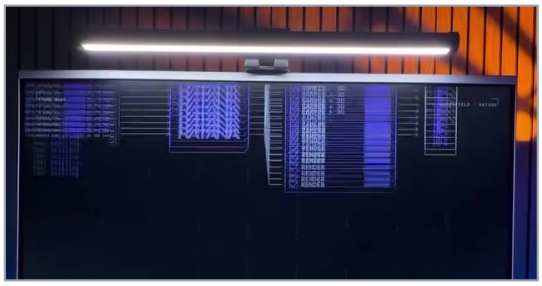

SCENE 7 12 to 14 s Brand reveal

VISUAL Small label above a logo and wordmark on the dot grid with a single glowing blue dot.
TEXT ON SCREEN THIS IS Higgsfield
MOTION Logo scales in softly with bloom, dot orbits.
SFX Logo hit at about 12.0 s, sparkle at 12.8 s.
AUDIO HITS 12.0 s, 12.8 s

SCENE 8 14 to 20 s Prompt box types out

VISUAL A line draws across the frame and opens into a prompt panel. A prompt types out and important words get violet highlight chips. An enter-key icon appears.
TEXT ON SCREEN a samurai in a long coat steps forward, neon text slides behind him, shapes fly at the lens.
MOTION Line to box morph, typewriter text, highlight boxes pop behind chosen words, enter key bounces.
SFX Typing ticks, click on the highlights, enter key tap.

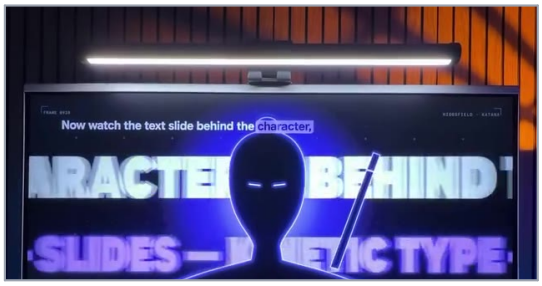

SCENE 9 20 to 22 s Data pipeline glitch

VISUAL A wireframe machine made of purple data bars and blocks, glitching sideways.
TEXT ON SCREEN (abstract pipeline)
MOTION Fast horizontal glitch scan, bars flicker and shift.
SFX Digital glitch burst.

SCENE 10 22 to 30 s Second prompt with building decor

VISUAL Heading plus a prompt box with a character counter. Decorative icons (type icon, wireframe shape, silhouette outline, timeline ruler) fade in around the panel as the prompt grows.
TEXT ON SCREEN THE PROMPT: Create a 15-second cinematic character shot with kinetic typography, orbiting 3D elements, and fluid camera...
MOTION Text types, counter increases, props slide and scale in around the panel.
SFX Typing ticks, soft blips for each prop. Hits at about 27.0 s and 29.8 s.
AUDIO HITS 27.0 s, 29.8 s

SCENE 11 30 to 34 s Result preview with kinetic type

VISUAL Two rows of huge text scroll sideways behind a glowing blue character silhouette with white eyes, a diagonal slash line crosses.
TEXT ON SCREEN THE CHARACTER, BEHIND THE CHARACTER, KINETIC TYPE, SLIDES. Subtitle: Now watch the text slide
MOTION Opposing horizontal scrolling rows, character with rim glow, slight camera push.
SFX Rising whoosh, rhythmic sweeps.

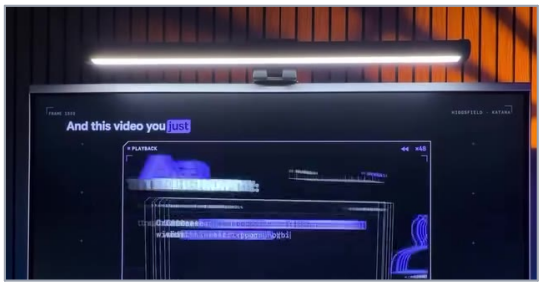

SCENE 12 **34 to 38 s Neon tunnel then collapse**

VISUAL Nested neon rectangles rush toward camera like a tunnel, then collapse into a small block icon on the empty grid.
TEXT ON SCREEN (none)
MOTION Fast Z-axis fly through with scale-based loop, collapse by scale down.
SFX Warp whoosh, then a thud at about 37.0 s.
AUDIO HITS 37.0 s

SCENE 13 **38 to 50 s Time spent counter**

VISUAL Cards stack from the bottom: task name with plus hours. A big pink counter climbs as cards are added.
TEXT ON SCREEN Think about building that in After Effects. MASKING +4H, LAYERING +3H, KEYFRAMES +5H, SYNCING IT ALL. TIME SPENT 7H then 12H then 16H
MOTION Cards slide up and push older cards upward, counter rolls up. Last card has a loading bar and ETA.
SFX Pop for each card, counter tick roll. Hits at about 45.1 s and 47.6 s.
AUDIO HITS 45.1 s, 47.6 s

SCENE 14 **50 to 56 s Answer in one prompt**

VISUAL Logo, then a three step chip chain, a file browser UI, then a huge phrase with one pink glitching word.
TEXT ON SCREEN KATANA, PROMPT, GENERATE, ONE PROMPT
MOTION Chip chain wipes left to right, big text slams in with the last word glitching.
SFX Impact hits at 52.2 s, 53.8 s and 54.4 s.
AUDIO HITS 52.2 s, 53.8 s, 54.4 s

SCENE 15 **56 to 60 s Sign-off lockup**

VISUAL A single light line sweeps, then the combined partner logo lockup glows on dark.
TEXT ON SCREEN Higgsfield KATANA x Claude Motion
MOTION Line sweep wipe to a logo scale-in with outer glow.
SFX Sweep whoosh, final logo hit at about 60.0 s.

V5 Video editor promo: hook and CTA screens

FORMAT 16:9 landscape (25 fps)

LENGTH 24.9 s

NICHE Freelance video editor promo

SOURCE FILE 3827.mp4

PALETTE Magenta #C21FD6, white, deep purple #3A0B52 to black, lavender

TYPE Poppins style geometric sans with bold and light mixing

STYLE DNA Deep purple gradient screens bookend the promo. Short white hook text with a hand-drawn underline swoosh at the start, and a glowing gradient CTA at the end. Scenes that show people were removed from this reference.

SCENE 1 **0 to 2 s Hook on purple**

VISUAL Deep purple vertical gradient. Small white text with a lavender gradient on the key words and a hand-drawn underline swoosh.
TEXT ON SCREEN Looking For VIDEO EDITOR?
MOTION Text fades in, swoosh underline draws on with trim path.
SFX Soft riser and a swoosh. Audio hit near 0.3 s.
AUDIO HITS 0.3 s

SCENE 2 **17 to 24.9 s CTA end card**

VISUAL Blur-wipe back to the purple gradient. Two lines of white text with a glowing gradient on the second line.
TEXT ON SCREEN Let's Build Your Content. ORDER NOW
MOTION Upward gradient mask wipe, text fades in and the CTA glows with a slow pulse.
SFX Whoosh on wipe, sparkle on the CTA, then quiet hold.

V6 divyaozo: 'Attention is expensive' brand explainer

FORMAT 9:16 vertical

LENGTH 26.4 s

NICHE Brand and design agency motion explainer

SOURCE FILE 7396.mp4

PALETTE White, vivid green #22D610, black, pale green #E6F9E3

TYPE Neo-grotesk sans (Inter / Helvetica Now style), regular weight for statements, medium for pills

STYLE DNA White background with soft green gradients and ring outlines. Green icon badges, black bracket corners, bold black text with one green keyword, a rapid-fire pill chip pile and a quiet logo end.

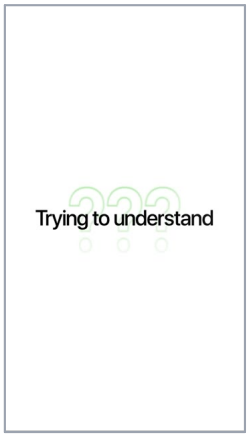

SCENE 1 **0 to 2 s Statement with keyword**

VISUAL Centered line on white with a faint radial green glow. Large pale green circle outlines at the corners. Tiny dollar signs float near the keyword.
TEXT ON SCREEN Attention is expensive
MOTION Text fades in. 'expensive' turns green, dollar symbols rise and fade, circles drift.
SFX Soft pop on the word turn. Audio hit near 0.9 s.
AUDIO HITS 0.9 s

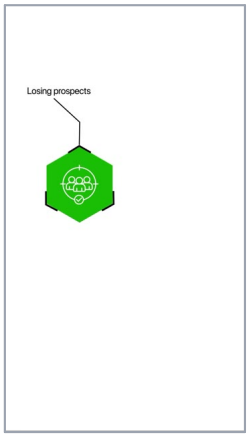

SCENE 2 **2 to 4 s Audience icons in brackets**

VISUAL Green corner brackets frame a row of five person icons where the center one is black. Small blurred line of text under it.
TEXT ON SCREEN Your audience spends seconds deciding if you're worth their attention.
MOTION Brackets draw in from the corners, icons pop one by one, center icon flips to black.
SFX Focus blip at about 3.5 s.
AUDIO HITS 3.5 s

SCENE 3 **4 to 6 s Confusion beat**

VISUAL Faint question marks sit behind a short line of text.
TEXT ON SCREEN Trying to understand
MOTION Question marks bounce lightly, text blurs in.
SFX Quiet wobble sound.

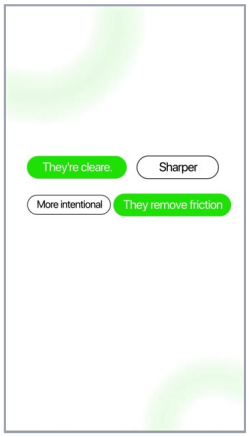

SCENE 4 6 to 10 s Hexagon icon callouts

VISUAL Green hexagon badges with black bracket corners and white line icons (target, rocket, money bag). Thin leader lines lead to small labels.
TEXT ON SCREEN Losing prospects, Losing momentum, Losing opportunities
MOTION Each hexagon pops with a scale bounce, leader line draws, label fades in.
SFX Pop for each of three badges. Hits at about 7.1 s, 8.2 s and 9.7 s.
AUDIO HITS 7.1 s, 8.2 s, 9.7 s

SCENE 5 12 to 14 s First pill chips

VISUAL A big pale green arc in the corner. Two pill chips: one filled green, one outlined.
TEXT ON SCREEN They're clear. Sharper
MOTION Pills pop in one after another using a spring ease.
SFX Bubble pop per chip.
AUDIO HITS 13.9 s

SCENE 6 14 to 20 s Chip pile grows

VISUAL More pills join in staggered rows. Filled green and outlined styles alternate so the eye reads them as a rhythm.
TEXT ON SCREEN More intentional. They remove friction. They accelerate understanding. They make decisions feel effortless
MOTION Each pill pops with a spring, rows wrap and shift as new ones arrive.
SFX One bubble pop per chip. Hits at 10.7 s up to 21.8 s mark the rhythm.
AUDIO HITS 14.7 s, 15.4 s, 16.2 s, 16.9 s, 17.8 s, 19.2 s, 19.9 s

SCENE 7 22 to 24 s Closing statement

VISUAL A black line of text on white typing out.
TEXT ON SCREEN Because clarity isn't an advantage...
MOTION Typewriter reveal with a cursor block.
SFX Typing ticks.
AUDIO HITS 23.4 s

SCENE 8 **24 to 26.4 s Brand logo end**

VISUAL The agency X mark and wordmark small in the center of the white screen.
TEXT ON SCREEN divyaozo
MOTION Logo scales in with gentle ease and holds.
SFX Single soft logo hit.
AUDIO HITS 24.6 s, 25.2 s

V7 Krish: motion designer self-intro (iOS UI style)

FORMAT 1:1 square

LENGTH 33.7 s

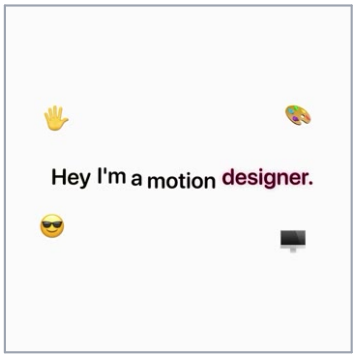

NICHE Motion designer personal story reel

SOURCE FILE 7398.mp4

PALETTE White, iOS blue #1A7CF0, sky gradient, amber, black, magenta highlight

TYPE SF Pro / Inter style sans, rounded bubbles, mixed weights for kinetic words

STYLE DNA Every scene is a different native-feeling UI: emoji pop, app icon orbit, stepper, AI chat input with autocomplete, iMessage bubbles, segmented control, carousel picker, calendar. Backgrounds swap between white, blue mesh, amber and black.

SCENE 1 0 to 2 s Intro line with emoji

VISUAL White canvas, black sentence with the final word in magenta highlighter. Emoji (wave, palette, sunglasses, monitor) around the text.
TEXT ON SCREEN Hey I'm a motion designer.
MOTION Words type in, emoji pop with bounce in the corners, highlight marker wipes across the final word.
SFX Pop for each emoji, marker swipe.

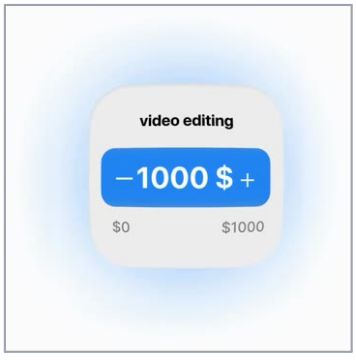

SCENE 2 2 to 4 s Name on blue mesh

VISUAL Soft blue gradient mesh with white sparkle stars.
TEXT ON SCREEN my name is krish
MOTION Text fades in with scale, stars twinkle and rotate.
SFX Sparkle chime.

SCENE 3 4 to 6 s App icon orbit

VISUAL A ring of iOS-style app icons (calendar, fitness rings, notes, timer, clock, podcast) orbits around a small black pill label.
TEXT ON SCREEN challenging myself
MOTION Icons rotate on a circular path, each with a small bob, pill pops in at the center.
SFX Soft pops and a ticking loop.

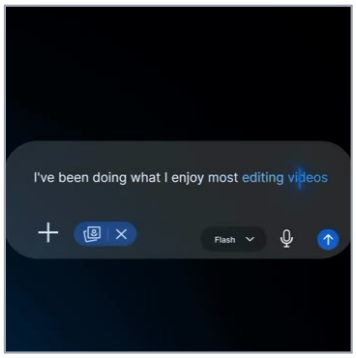

SCENE 4 6 to 8 s Price stepper widget

VISUAL Frosted glass card with a big blue stepper and a range under it.
TEXT ON SCREEN video editing -1000 $ + ($0 to $1000)
MOTION Number counts down with the minus button pressed, slider handle moves, glow pulses.
SFX Rapid ticks as the number counts, click on the button.

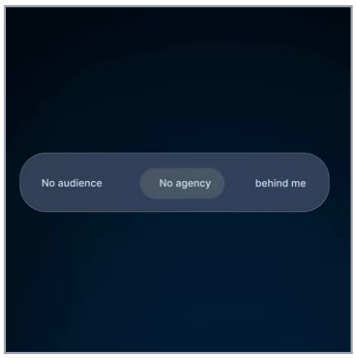

SCENE 5 8 to 10 s Blurred text on amber

VISUAL Warm amber blurred background. Text blurs into focus with a blinking caret.
TEXT ON SCREEN the last few yea|
MOTION Horizontal motion blur resolves as text types, camera drifts.
SFX Typing ticks.

SCENE 6 10 to 14 s AI chat input with autocomplete

VISUAL Dark rounded chat input with a model dropdown (Flash), mic and a blue send button. A suggestion menu opens below the typed text.
TEXT ON SCREEN I've been doing what I enjoy most editing videos. Right now / I have / zero clients
MOTION Text types, autocomplete dropdown slides down and the third option highlights and replaces the text.
SFX Typing ticks, menu pop, selection click.

SCENE 7 14 to 16 s Segmented control

VISUAL A dark pill with three options. The selector slides between them.
TEXT ON SCREEN No audience, No agency, behind me
MOTION Highlight pill slides left to right with ease, texts brighten as selected.
SFX Slide click per option.

SCENE 8 16 to 20 s iMessage bubbles

VISUAL White background with blue chat bubbles typed one after another and a read receipt.
TEXT ON SCREEN Just an obsession with creating better videos. Read 3:15 PM
MOTION Bubble grows in with iOS pop, a second bubble pushes the first upward.
SFX iMessage sent whoosh and tone. Audio hit near 17.4 s.
AUDIO HITS 17.4 s

SCENE 9 20 to 22 s Carousel picker

VISUAL Sky gradient. A title and an Instagram icon card with left and right arrows and a cursor clicking next.
TEXT ON SCREEN I'll be posting on
MOTION Cursor clicks the arrow, icon card swaps with slide transition (platform switching).
SFX Click and slide whoosh.

SCENE 10 **22 to 24 s Kinetic font morph**

VISUAL Black text on white where the last letters change weight and shape in real time.
TEXT ON SCREEN I'll keep
MOTION Per-letter weight and blur animation, letters swap like a variable font.
SFX Short flutter sound.

SCENE 11 **24 to 26 s Chromatic motion blur streak**

VISUAL A line of blurred text stretched horizontally on black with red and blue color fringing.
TEXT ON SCREEN posting and see what happens
MOTION Fast horizontal slide with motion blur and chromatic aberration, then snap to sharp.
SFX Speed whoosh and tape stop.

SCENE 12 **26 to 28 s Client word in tile**

VISUAL White canvas, a pale lavender tile with a bold word. Edges blurred while it settles.
TEXT ON SCREEN client
MOTION Tile scales in with blur then sharpens, slight 3D tilt.
SFX Soft thump.

SCENE 13 **28 to 30 s Calendar date picker**

VISUAL Blurred calendar numbers with a highlighted range and a round blue button with a question mark. Time feels uncertain.
TEXT ON SCREEN 10 11 12 13 14 / 18 19 20 21 ? / 26 27 28 29 30
MOTION Calendar scrolls with motion blur, range highlight slides, question button pulses.
SFX Scroll whoosh and a question pop.
AUDIO HITS 29.7 s

SCENE 14 **30 to 32 s Closing line on black**

VISUAL Blurred white text with colored blur edges on pure black.
TEXT ON SCREEN that's what makes it e...
MOTION Text blurs in and out horizontally while wiping on.
SFX Whoosh. Audio hit near 29.7 s.

SCENE 15 **32 to 33.7 s Handle sign-off**
VISUAL White glowing handle on black.
TEXT ON SCREEN thekrishray
MOTION Glow bloom fade in and hold.
SFX Soft shimmer.

V8 OpenAI-style product launch film (Build in one place)

FORMAT 16:9 landscape

LENGTH 31.1 s

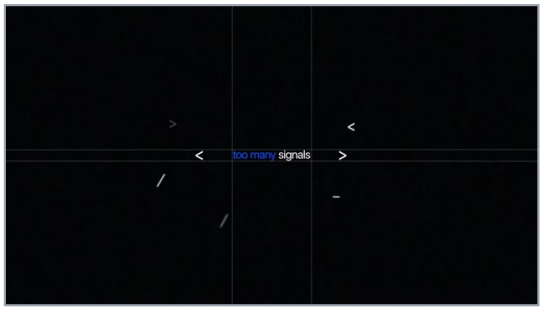

NICHE Premium AI product launch (agentic coding and productivity)

SOURCE FILE 7404.mp4

PALETTE Black with electric blue #0A7BFF, white, misty greens, warm cream paper, sky blue

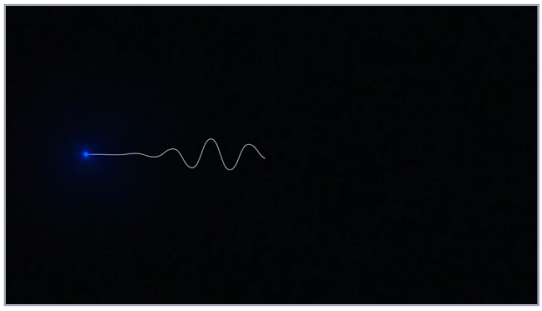

TYPE Neo-grotesk sans (OpenAI Sans style), monospace in code window

STYLE DNA Starts as dark data-flow art (signals and nodes), switches to bright natural photography with polished UI and code windows, ends on blue-sky flowers with a calm logo. Each scene pairs an abstract concept with a real UI piece.

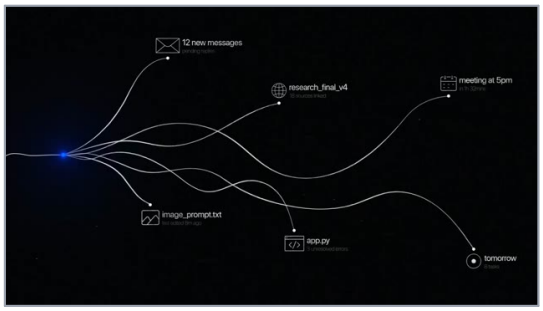

SCENE 1 0 to 2 s Signals in the dark

VISUAL Thin crosshair lines and small slashes on black. Center label with angle brackets.
TEXT ON SCREEN < too many signals >
MOTION Lines slide in from the sides, brackets pulse and glitch.
SFX Fast digital ticks. Several audio hits between 0.3 s and 2.7 s.
AUDIO HITS 0.3 s, 1.3 s

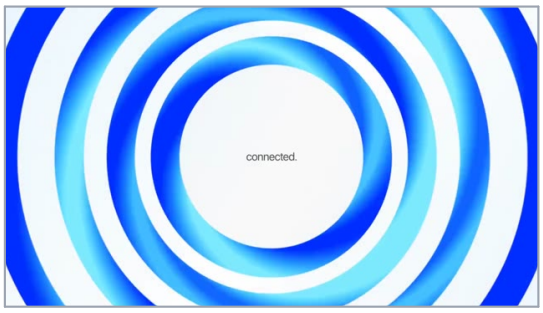

SCENE 2 2 to 4 s Blue dot with a wave

VISUAL A single blue dot and a squiggly sine wave line emerging from it.
TEXT ON SCREEN (none)
MOTION Line draws on with trim path, wave amplitude eases.
SFX Low sine hum rising.
AUDIO HITS 2.0 s, 2.7 s, 3.5 s

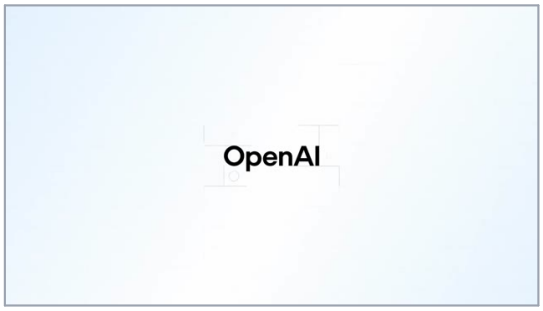

SCENE 3 4 to 8 s Branching flow of notifications

VISUAL The line splits into many flowing curves that end in notification nodes with icons and small gray subtext.
TEXT ON SCREEN 12 new messages, research_final_v4, meeting at 5pm, image_prompt.txt, app.py, tomorrow
MOTION Curves grow like roots with trim paths, nodes pop at the tips with a label fade.
SFX Pop for each node. Hits at 3.5 s, 5.1 s and 5.9 s.
AUDIO HITS 5.1 s, 5.9 s, 7.0 s

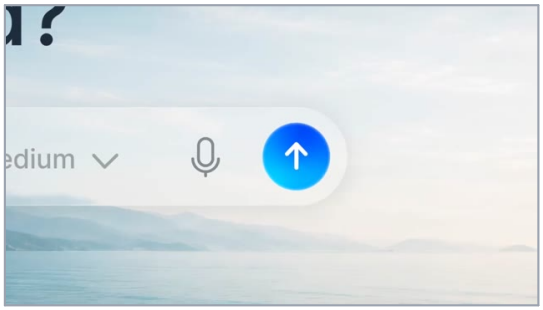

SCENE 4 8 to 10 s Connected ripple

VISUAL Cut to white. Concentric blue gradient rings expand around a gray disc.
TEXT ON SCREEN connected.
MOTION Rings scale out with ease and fade in thickness, label settles.
SFX Big soft impact with a warm chord at about 7.0 s and 8.3 s.
AUDIO HITS 8.3 s

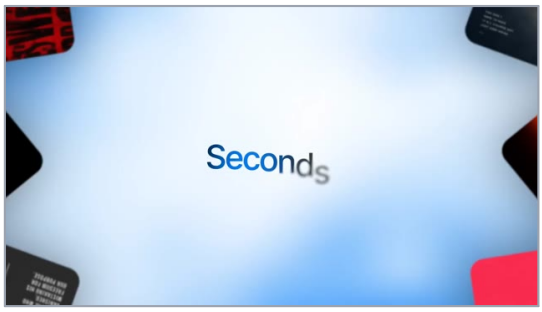

SCENE 5 10 to 12 s Wordmark with crosshairs

VISUAL Company wordmark on a pale sky background with thin corner brackets.
TEXT ON SCREEN OpenAI
MOTION Brackets draw in and the wordmark fades in with a hint of blur.
SFX Clean tone hit at about 10.0 s.
AUDIO HITS 10.0 s, 11.2 s

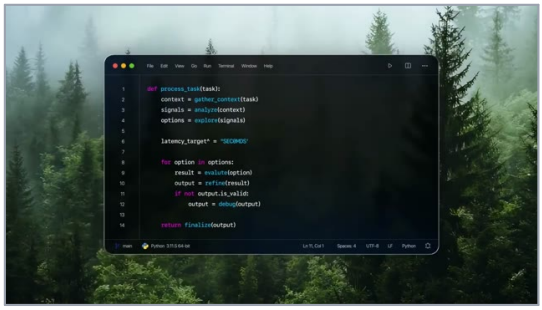

SCENE 6 12 to 14 s Chat input close-up

VISUAL Macro close-up of a glassy chat input over a misty lake photo, partial text, a blue send arrow button.
TEXT ON SCREEN (partial) ...d? Medium mic send
MOTION Camera slides across the input, button glints.
SFX Slide whoosh with a soft click at about 11.2 s.

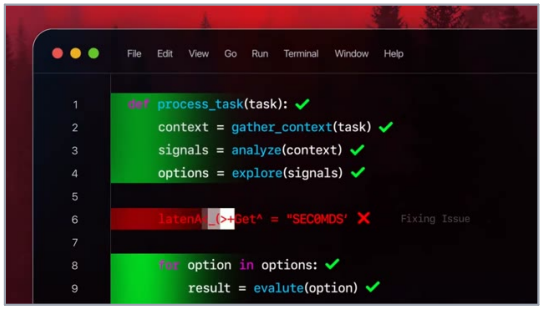

SCENE 7 14 to 16 s Text morph over devices

VISUAL Blue letters morph as a word is retyped over blurred tilted devices in red and black.
TEXT ON SCREEN Secon(d)
MOTION Per-letter morph and blur, devices swing in the background.
SFX Flutter whoosh.
AUDIO HITS 14.8 s, 15.7 s

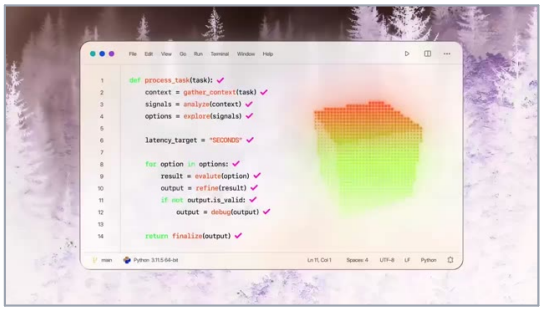

SCENE 8 16 to 18 s Code window on forest

VISUAL A macOS style code window floats over a forest photograph with Python code.
TEXT ON SCREEN def process_task(task) ... latency_target = SECONDS
MOTION Window scales in, camera drifts slowly, shallow depth of field background.
SFX Soft glass thud, typing tick. Hits at 14.8 s and 15.7 s.

SCENE 9 18 to 20 s Debug pass with checkmarks

VISUAL Zoom into a red tinted editor. Lines get green checkmarks one by one. One line is highlighted red with an error that is then fixed.
TEXT ON SCREEN Fixing issue... (error line 6)
MOTION Fast line-by-line highlight, error shake, fix wipe back to green.
SFX Check ping per line, error buzz, fix chime. Hits near 19.1 s and 20.6 s.
AUDIO HITS 19.1 s

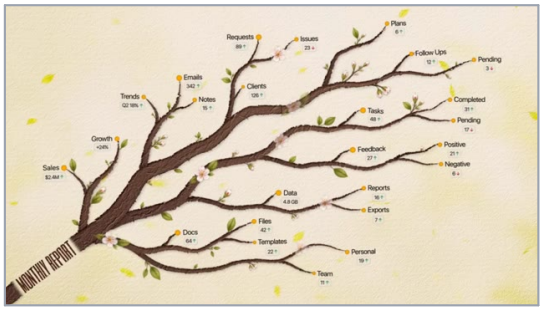

SCENE 10 20 to 22 s 3D voxel cube

VISUAL Camera returns to the forest window. A glowing purple and blue pixel cube grows beside the code.
TEXT ON SCREEN (none)
MOTION Cube builds from voxels, slowly rotates, small particles drift.
SFX Digital build-up riser.
AUDIO HITS 20.6 s

SCENE 11 22 to 24 s Data labels float on cream paper

VISUAL Warm cream paper texture. Many small labels with counts float and bob like bubbles.
TEXT ON SCREEN Requests, Issues, Plans, Emails, Trends, Clients, Tasks, Reports, Feedback...
MOTION Labels pop in with random delays and gentle float.
SFX Rapid bubble pops. Hit near 23.5 s.
AUDIO HITS 23.5 s

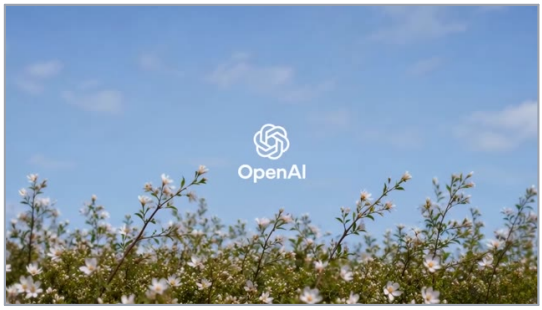

SCENE 12 **24 to 26 s Labels grow into a tree**

VISUAL A hand-drawn style tree grows from the bottom with the labels as leaves and fruit.
TEXT ON SCREEN Monthly report (trunk label)
MOTION Trunk and branches draw with trim path and leaves unfurl.
SFX Organic growth whoosh, soft chimes. Hit near 24.6 s.
AUDIO HITS 24.6 s

SCENE 13 **26 to 30 s Final promise on flowers**

VISUAL Blue sky over white flowers. White text with one blue word on top.
TEXT ON SCREEN One place. One place to Build
MOTION Words type, blue color wipes onto the last word, camera pushes slightly.
SFX Soft whoosh and warm note.

SCENE 14 **30 to 31.1 s Logo end**

VISUAL White logo and wordmark over the field of flowers.
TEXT ON SCREEN OpenAI
MOTION Logo fades in and holds.
SFX Final tone at about 30.2 s.
AUDIO HITS 30.2 s

Part 2. SFX cheat sheet (what sound goes with what motion)

Pattern seen in all 8 videos: every visible change has a sound, and the loudest sound lands on the cut or the logo.

Moment	Sound
Text or object slides, camera pushes	Whoosh (short, 0.2 to 0.5 s). Longer slides get a soft air swish.
Icon, chip, sticker or badge appears	Pop or bubble pop. Pitch it a little higher on each chip in a pile.
Typing, code lines, list items	Fast keyboard tick or soft click per character or per line.
Cursor click on a button	Mouse click or tap, then a tiny UI blip when the next state opens.
Big title slam or hard cut	Impact hit or short boom, often with a reverse riser 0.5 s before it.
Logo reveal	Clean tone hit, sometimes with a low sub boom and a sparkle shimmer.
Glitch, pixel dissolve, data bars	Digital glitch burst or static crackle.
Message bubbles and notifications	Sent whoosh and received ding, like a phone messenger.
Check mark or success state	Short ping. Pair an error line with a buzz, then a fix chime.
Counter rolling up	Quick tick roll that speeds up then lands with a thud.
Calm hold or end card	Quiet pad or silence so the logo feels premium.

Part 3. Edit rhythm rules (approximate values from observation)

- Text scenes last 1.5 to 3 seconds. UI mockup scenes last 3 to 6 seconds. Logo holds 1 to 3 seconds.
- Elements enter with an ease-out (fast start, slow settle) and a small overshoot of about 105 percent before settling at 100 percent.
- Group items appear with a stagger of 3 to 6 frames each, never all at once.
- Text usually blurs in for about 0.3 s. Highlight words get a color or box so the eye knows the key word.
- Backgrounds stay simple (solid, or one blurred glow) so UI and text carry the scene.
- Change the visual or the background color roughly every 2 to 3 seconds to keep attention, and flip light to dark on the biggest beat.
- Use one accent color per video (orange, violet, magenta, green, blue) and keep the rest neutral.
- Cut on audio peaks. The loudest peak is the best place for the title, the reveal or the logo.

Part 4. Prompt template for the chatbot

Paste this block to a chatbot together with this PDF. Fill in the brackets.

```
TASK: Design a [LENGTH]-second [RATIO] motion graphic / SaaS animation for [PRODUCT or PERSON].
STYLE REFERENCE: Use the style DNA of [V1 to V8] from the attached storyboard PDF.
PALETTE: [BACKGROUND], [ONE ACCENT COLOR], white text. FONT: [SANS or MONO].
STRUCTURE: Hook line (0 to 2 s), problem or question (2 to 5 s), UI mockup demo (5 to 14 s), proof or stat (14 to 20 s), CTA click (20 to 24 s), logo hold (last 2 s).
FOR EVERY SCENE GIVE: time range, VISUAL, TEXT ON SCREEN, MOTION (easing, transition), SFX, AUDIO HIT position.
RULES: Follow Part 2 SFX cheat sheet and Part 3 rhythm rules. One accent color. No more than 12 words on screen per scene.
OUTPUT: A scene table plus a ready-to-paste AI video or code prompt for each scene.
```

Quick style picker

Dark, premium, SaaS or AI tool	V2, V3, V8
Loud, neon, kinetic hype	V4
Clean white corporate explainer	V6, V8
Personal brand or freelancer intro	V3, V7
Product UI story with cursor clicks	V2, V3, V7
Integrations and hub diagram	V1
